Fauci warns of 'suffering and death' if U.S. reopens too soon

By L. NEERGAARD
and R. ALONSO-ZALDIVAR
Associated Press

WASHINGTON (AP) — Dr. Anthony Fauci, the nation's top infectious disease expert, warned bluntly Tuesday of "really serious" consequences of suffering, death and deeper economic damage if state and local officials lift stay-at-home orders too quickly, even as President Donald Trump pushes them to act to right a free-falling economy. Fauci's testimony before a Senate committee came as more than two dozen states have begun to lift their lockdowns as a first step toward economic re-

covery. Underscoring the seriousness of the pandemic that has reached Congress and the White House, Fauci and other experts testified by video from their homes. Sen. Lamar Alexander, R-Tenn., chaired the hearing by video from the study in his cabin in Tennessee, though several members of the Health, Education, Labor and Pensions Committee did attend at the Capitol.

Fauci and other health officials stressed that pandemic danger persists, even as testing increases and work toward a vaccine and treatments continues.

Avianca a reitera cu lo sigui su operacion aereo pa Aruba

Avianca a yega di reitera cu tur cos lo sigui normal den sentido di servicio- nan poni te cu aworaki tambe. Nan a informa cu nan a adopta e ley di bancarota di Merca pa e mesun proteccion di e compania, pa asina nan por sigui cu nan plan di reorganisa- cion. Esaki tabata e informacion cu directora di ATA ta dispone di dje to- cante Avianca su operacion di vuelo pa Aruba.

Segun informacion divulga den me- dianan di comunicacion internacio- nal manera RCN di Colombia, ta indica cu esaki ta e di dos biaha cu Avianca ta adopta e figura huridico di bancarota na Merca. E prome biaha a sucede na aña 2003, caminda Avianca Holding a haci uzo di e capitulo 11 of ley di bancarota na Merca.

Pa Avianca e uzo di e figura huridico lo yuda e compania pa pone fin na cierto incertidumbre financiero cu varios aerolinea ta pasando aden ac- tualmente, debi na e crisis di corona- virus/Covid-19. Ya cu di e forma aki nan ta haya un plan di proteccion pa pone na ordo nan compromisonan. Mientras cu nan lo sigui opera den nan mercadonan cu excepcion di Peru, caminda nan ta bay cera e com- pania di Avianca Peru SA.

ORANJESTAD - E compania aereo Avianca, un socio strategi- co di Aruba su turismo, a dicidi di adopta e ley di bancarota na Merca. Sinembargo nan a laga sa cu e decision aki no ta afecta su operacion na Colombia. Pero nos pregunta ta: Con e decision aki lo afecta Avianca su opera- cion aereo pa Aruba?

Contestando e pregunta aki, direc- tora di Aruba Tourism Authority (ATA), Ronella Tjin Asjoe-Croes, a declara na Bon Dia Aruba cu den principio e decision di Avianca pa aplica na e ley di bancarota, no ta afecta su operacion pa cu Aruba. Esaki den sentido di loke Avianca ta- batin plania aworaki como parti di e reapertura di Aruba su turismo.

E compania di aerolinea aki tin como parti di e reapertura di nos frontera y e lantamento di e lockdowns -cu tentativamente lo tuma luga entre 15 di juni y final di e mesun luna- dos vuelo semanal.

“Esaki ta loke tin poni te cu aworaki como reservacion pa Aruba,” el a de- clara.

Personanan cu pago di AO no ta cobra FASE ni subsidio di salario

ORANJESTAD - Director di Ban- co di Seguro Social (SVb), Edwin Jacobs a splica cu tin situacion cu ta wordo presenta cu e ayudonan otorga di FASE y tambe esun di subsidio di trabao. SVb ta par- ticipa den e programanan aki di sosten financiero pa empresanan y trahadonan.

Jacobs a aclaria cu tin situacion ca- minda companianan cu den luna di april a aplica ‘no work, no pay’, nan trahadonan na e momento ey a bin na remarca pa e pago di FASE. Pero si na

luna di mei e trahado ta bay aplica pa e subsidio di salario, esaki ta nifica cu e persona pa luna di mei no por ricibi e suma di FASE. Pero si e ta ricibi e subsidio di salario.

SVb door di su rol tanto den FASE y di subsidio di salario ta esun encarga pa controla cu e pago aki no ta sosode dobel. Igualmente nan ta controla cu personanan cu cerca SVb riba nan lis- ta di AO ta ricibiendo actualmente un pago for di seguro di malesa. Tam- po nan ta cobra e FASE ni e subsidio di salario, asina Jacobs a laga sa.

395 solicitud pa reanuda trabao di construccion a drenta DOW

Director di DOW, Marlon Croes a bisa cu su departamento a keda en- carga di parti di minister di Infra- estructura y minister di Husticia pa realisa e trabao aki. E sector di con- struccion a cay den e prome nivel di flexibilisacion cu a cuminsa dia 4 di mei ultimo pa reactiva nos economia na Aruba.

Actualmente nan a logra controla 114 peticion, 16 a wordo manda bek pa motibo cu e informacion no tabata completo. Mientras 157 peticion a wordo firma, autorisa y duna 158. Na momento di haya aprobacion di bo solicitud na DOW bo por cum- insa traha. E aprobacion aki ta inclui e reglanan of protocol di higiena y distanciamiento fisico/social cu tur compania mester cumpli cune.

Director di DOW a indica cu un 60% di e proyectonan ta trata di construc-

cion, 20% construccion comercial y otro 20% ta trata di mantencion rela- ciona cu companianan cu ta encarga cu instalacion y mantencion di airco, corta yerba, verf, etc...

DOW lo ta na haltura di tur e trabao cu ta bay reanuda y esun cu kier reg- istra mester haci esaki via nan web- site: www.dow.aw. Eynan bo ta haya e link pa procesa tur informacion rekeri, entre nan: Registro di Camara di Comercio, proyecto pa ehecuto, lista di nomber di empleadonan, per- soonsnummer, etc. Nan mester ta inscribi na AZV, SVB, DIMP y DAO.

Un suplica director di DOW a haci na e contratistanan y persona natural pa corda yena tur informacion com- plecto pa facilita e trabao pa procesa e solicitud lihe. Si e solicitud ta carece di tur informacion existi, nan tin cu mand’e bek of gewoon rechas’e.

Despues di dos luna,

Cuerpo di Polis a reporta cero detencion pa toque de queda

ORANJESTAD - Despues cu toque de queda a cuminsa dos luna pasa, especificamente dia 21 di maart, ayera mainta miembronan di prensa local a haya e noticia cu dialuna anochi no tabatin ningun detencion.

Liliana Rasjmin vocero di Cuerpo Policial a expresa pa Bon Dia Aruba cu durante e 52 dia di toque de queda, cu tabata dialuna, tabatin e cifra di 646 persona cu a keda deteni pa no cumpli cu e regla-

nan di keda na cas cu toque de queda.

Asina mes, el a señala cu esaki ta un hopi bon noticia ya cu comunidad mester comprende cu na e momentonan aki di crisis di coronavirus e ciudadanonan mester tin un tiki di pasenshi pa motibo cu ta un situacion cu nos tur mester custuma cune y mester cumpli cu e ley, tanten cu tin toque de queda y shelter in place pues cumpli y respeta e reglanan mientras esaki ta na vigor.

Dr. Van Trigt: “Habri scol no ta un riesgo hopi grandi”

ORANJESTAD - Dialuna den oranan di anochi, Dr. Joaquin van Trigt di Huisartsenvereniging Aruba (HAVA) a duna un presentacion tocante e riesgonan di muchanan pa cu COVID-19 y e situacion di habrimiento di scol.

Tocante un controversia cu a surgi den dianan aki tocante si scol mester habri of no, Van Trigt a expresa cu door di e flexibilisacion di e medidanan pa cu COVID-19, ta logico pa pensa cu tambe por cuminsa habri scolnan.

Despues di un reunion cu su

persona tabatin cu diferente directiva di scol y organisacionnan pa siguridad di mucha, nan a logra bin riba un linea tocante e situacion aki. Van Trigt a duna di conoce algun dato cu a detaya e situacion na Hulanda y na Aruba.

Especificamente di Aruba, el a bisa cu di e 101 pashent cu a wordo contagia cu coronavirus no tabatin muchanan entre 0-4 aña cu e malesa aki, tabatin 2 pashent di edad entre 5 pa 9 aña y 5 pashent entre 10 pa 14 aña di edad, loke ta duna un total di 12 mucha afecta cu coronavirus.

Di e cifranan positivo aki, Van Trigt a señala cu muchanan no ta wordo pega hopi lihe cu coronavirus y a subraya cu tur caso cu mucha cu ta registra na Aruba ta wordo contagia di un adulto den e mesun cas of mesun cluster. No tin casonan registra cu e malesa ta pasa di mucha pa mucha.

Van Trigt a comenta cu na nivel mundial e cantidad di muchanan cu a wordo contagia cu coronavirus ta relativamente chikito. Mayoria no a presenta sintomanan of a presenta sintomanan hopi leve. Algun di nan tabatin diferente sintoma compara

cu hende adulto y nivel di mortalidad ta hopi abou.

Esaki ta importante pa trece dilanti na e momentonan di habri scol, cu mester tene na cuenta cu ta existi hopi miedo door di falta di informacion. Mester tuma un decision tocante esaki, pa via cu si ta compara e datonan cu e flexibilisacion di medidanan, e habrimiento di scol ta carga cune un riesgo mas chikito.

Asina mes, el a declara cu nan tin basta siman cu e casonan stabiel y e fronteranan ta cera. Esey ta muestra cu no ta terciendo mas casonan lo-

cal, pa loke el a sigura: “Nos ta kere cu habrimiento di scol no ta un riesgo hopi grandi.” E protocolnan cu tin di Hulanda, den cual nan a tira un bista, ta hopi stricto. Por mantene e protocolnan y nan por traha nan mesun protocol, unda lo tene na cuenta cu condicionnan di gruponan di riesgo como maestronan, pero tambe e muchanan pa asina hende poor sinti mas sigur na e momento di habri scol.

Ademas, el a comenta cu nan ta keda vocifera riba e importancia di distanciamiento social tambe na scolnan y ora di flexibilisa e medidanan y habri economia bek. Un di e cosnan cu hendenan ta custuma di haci ta hiba nan yi-unan na scol prome cu nan ta bay trabou, tur esaki tin relacion, loke ta nifica cu habrimiento di scol tin efectonan riba e parti di flexibilisacion y habrimiento di economia.

Na e momento cu scol cuminsa habri, Van Trigt a bisa cu nan ta bay tene cuenta tambe cu ta bay tin casonan individual acerca, pero nan ta ekipa y DVG tambe ta ekipa pa haci e monitoring si tin caso positivo pa tuma accion y haci contact tracing.

“Ya cu e riesgo ta abou, nos por habri scolnan y pone tur hende como mayornan y muchanan pa custuma cu e situacion nobo, unda mester tuma mas distancia”, Van Trigt a expresa. Pa finalisa, el a recorda cu muchanan mester laba man cada cierto tempo, ya cu awor e situacion ta stabiel y asina custuma cu e situacion nobo.

*Encuanto areglo nobo pa registra tereno di huur***Hopi pregunta cerca cunukeronan di antaño**

ORANJESTAD - Ta existi bastante confusion y incertidumbre ainda cerca cunukeronan, varios di nan di antaño, cu no ta consciente ainda di e riesgo cu nan ta coriendo di perde nan tereno, si nan no cumpli cu e proceso di (re-)inscripcion, entama recientemente pa ministro encarga cu Planificacion y Infraestructura.

Recientemente ministerio di Infraestructura y Planificacion a ordena un ronda nobo di inscripcion pa esnan cu ta desea di haya un pida tereno pa agricultura/horticultura, den cuadro di e intencion di stimula produccion agricola den e tempo di crisis aki. Esey sin duda algun tin su bandanan positivo, pero entre e grupo di cunukero di hopi aña, tin varios cu no a capta e mensahe cu nan lo mester re-inscribi pa por haya/keda cu tereno pa planta. Tin varios, y Bon Dia Aruba a papia cu algun di nan, cu ta kere cu nan tin nan asunto bon regla, pasobra nan tabatin nan convenio valido y/o tin renobacion di nan convenio di hopi aña den tramite di renobacion.

Sin embargo, si nos lesa e documentacion riba website di DIP (DIP.aw) bon, ta absolutamente necesario pa participa na e ronda nobo aki, den dos parti, pa por haya/keda cu tereno di huur. Na ningun momento e informacion duna pa e departamento ta papia di e tramitenan manera tabata practica durante varios decada.

E forma den cual esaki tabata tuma lugar tabata den forma di concretisa e convenio di huur den un buki, (di cual algun impresion fotografico), den cual ta describi lo necesario di e tereno cu e persona ta huur, y pa cual periodo (di 5 aña) esaki ta. Si nos a comprende bon, e proceso aki a keda descarta sin cu sikiera a referi na esaki den e informacion nobo.

Asina por sucede cu tin persona cu ta kere cu nan renobacion di huur ta den tramite, pasobra nan a entrega nan 'huurboekje' na e departamento pa renobacion di e periodo, mientras cu segun nos evaluacion e informacion duna actualmente ta bisa bon cla cu tur hende mester participa na e ronda nobo di inscripcion aki. Esey ta encera bay online y haci e (re-)inscripcion, paga e Afl. 35 requeri y dentro di 30 dia cu a confirma e inscripcion, mester entrega (online) e restante informacion cu ta existi. Esaki ta trata informacion kico ta bay produci riba e tereno, etc.

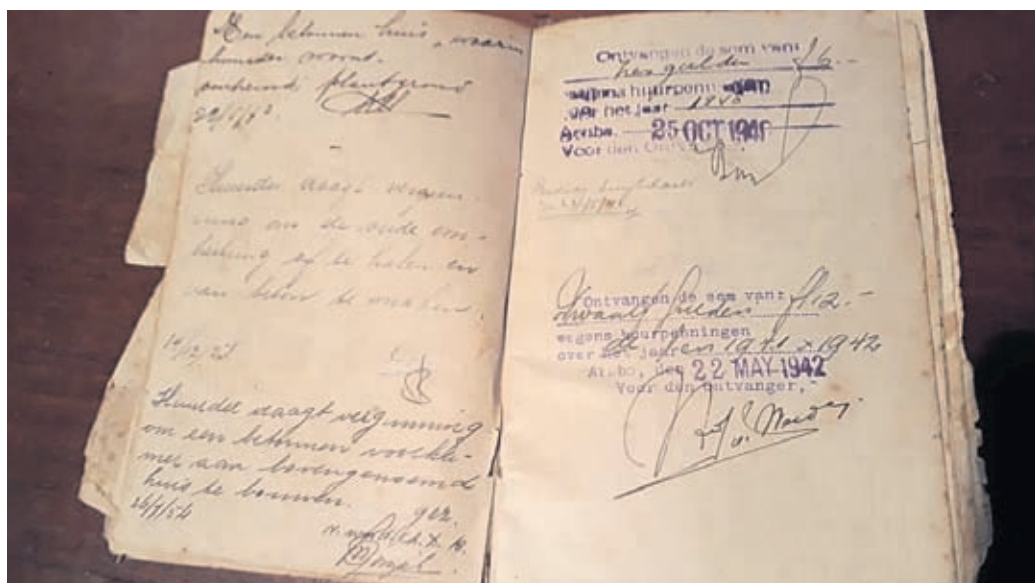

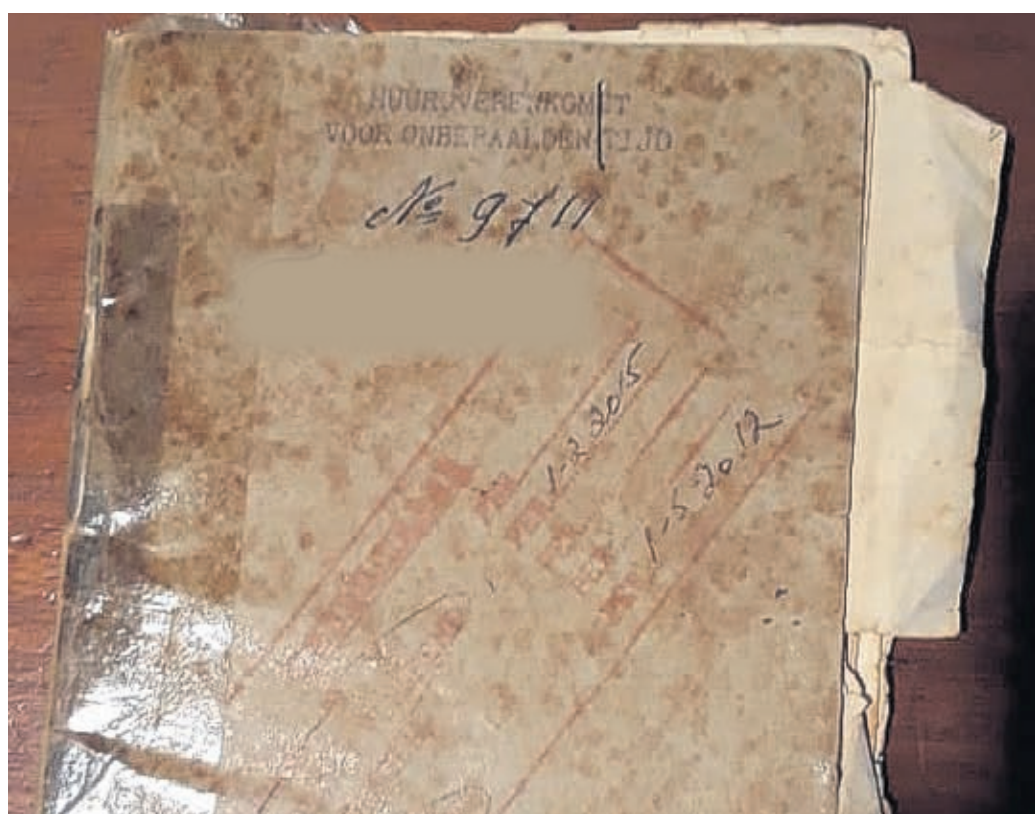

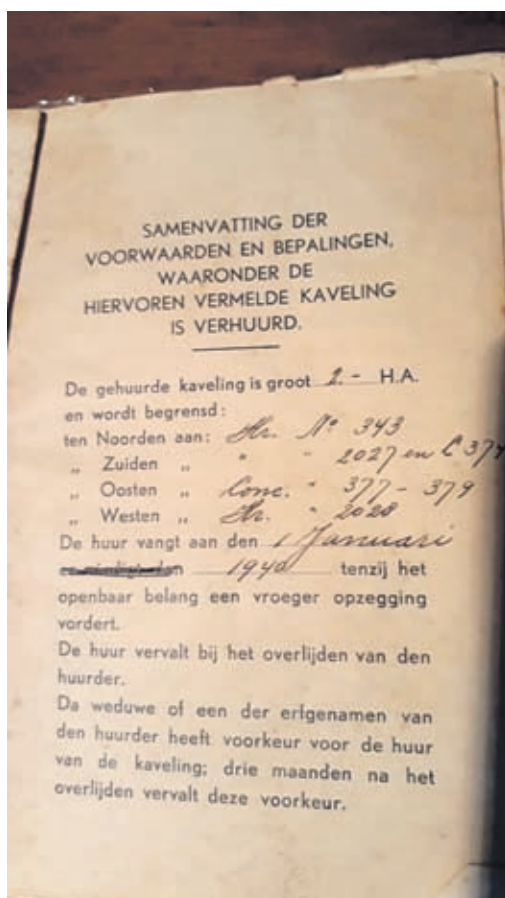

Tambe, den e proceso nobo, si no cumpli tur dos biaha cabalmente cu e (re-)inscripcion manera stipula (online) anto, manera e formulacion di e departamento ta: "Si bo persona no manda un e-mail, manera ta stipula y describi den punto I, bo persona ta duna Directie Infrastructuur en Planning di conoce, cu bo persona no ta interesa den un huurgroond. No lo acepta y/of trata ningun otro forma di peticion." Aunke por ta posible cu por retira legalmente e forma di proceder aki di e departamento/ministerio, pero caminda hudicial ta largo y ta recomendable pa sigui e proceso indica, pa garantisar tratamiento adecua di e peticion.

Tambe a yama nos atencion cu riba e formulario di (re-)inscripcion no tin espacio pa esnan cu pa decadas caba tin un tereno di huur, pa nan yena e datonan (catastral) di e tereno cu nan tin actualmente. Ta e idea pa nan no mag/por pidi explicitamente pa mantene nan tereno? Aki ta falta splicacion di banda di e departamento/ministerio.

Resumiendo, ta recomenda esnan cu tin tereno di huur y cu ta desea di sigui cu esaki, pa nan busca ayudo, di famia o amigo, pa subi internet pa yena e formularionan correspondiente, percura pa e documentonan existi y corda yena y entrega e di dos formulario tambe, dentro di e tempo stipula. Ademas paga e Afl. 35 cu via online banking.

Nota di redaccion:

E asunto aki ta haci nos corda e problema cu a surgi na Bonaire algun aña atras, tempo cu e Hulandesnan a dicidi di nochi pa mainta pa descarta completamente pago di pension y bijsland via caha. Tur hende mester a percura pa bay online banking, siendo cu mayoria di e ancianonan y hende di poco recurso no tabatin e medionan pa paga e infraestructura digital aki. Protesta cerca Ombudsman a hiba na critica fuerte riba gobierno (Openbaar Lichaam Bonaire) di banda di Ombudsman, cu consecuencia cu gobierno mester a reconoce nan eror di no duna e grupo vulnerable aki tempo pa adapta y a haya su mes obliga di habri loket atrobe. Por ta cu ta p'esey Aruba ta tende lema y consigna bunita so di un Ombudsman, pero den practica nada?

Den tempo di crisis... *Haci un cos...*

Den ultimo tempo aki nos ta haya nos cu un cantidad di decision di gobierno cu supuestamente mester demostra nan decision pa tuma medida rapido y fuerte, pa pone cierto cosnan cana. Esey den tempo di crisis sigur ta na su lugar, basta nos ta papia di e temanan unda esaki ta bon. Lamentablemente, den varios caso hustamente tabata necesario pa tuma djis un tiki mas tempo pa ehecuta e cosnan aki di forma corecto.

Asina nos a bin topa cu e caso di e traspaso di Colegio San Nicolas pa e fundacion cu ta opera De Schakel, sin cu absolutamente no tabatin un preparacion di e asunto, pa busca loke na Hulandes nan ta yama 'draagvlak' den comunidad pa esaki. Y pakico no ta haci esaki? Nos tin e leve sospecho cu di e manera aki lo kier a evita e debate tocante e topico aki. Si esey ta e caso, for di punto di vista di goberna bon esey ta mal pensa, pasobra e debate ta bin di tur manera y ta haci e mandatario luci malo como un persona cu kier sconde cos.

No cu e no ta logra esey pero tambe e argumentonan cu e ta usa pa duna e fundacion menciona e 'benefit of the doubt' ta resulta di ta bastante debil. E ministro ta bisa cu e fundacion tin excelente resultado di riba 90%, y nos lo a prefera di kere su palabra, pero nos no por a comproba esaki como veridico. Den documentacion di su propio ministerio nos por a haya e resultadonan di aña escolar 2018-2019. Pa loke ta MAVO, Schakel College tabatin un porcentahe di exito den examen final di 75%, mientras otro scolnan manera Filomena College (89%) y Mon Plaisir College (88%) tabata mas halto. Nos no a menciona tur pero De Schakel tabata number penultimo den e categoria aki, unda Ceque College tabata e unico riba 90% (92%). Awor, lo bisa, nos ta compara e resultadonan di HAVO/VWO, pasobra ta esey Colegio San Nicolas ta haci.. esey ta berdad, ban compara esey anto. Aki Colegio San Nicolas ta score 67% pa e 'regulier traject' mientras cu De Schakel ta yega na 88%. Chapeau pa esey. By the way, Colegio Arubano aki ta score 70%, apenas mihor cu Colegio San Nicolas. Pa loke ta VWO, ta cifra di Colegio Arubano so tin... (78%).

Anto ainda nos no a haci e comparacion di cantidad di alumno, pasobra Colegio San Nicolas ta un scol di mas di 500 alumno, cu un grupo di mas di 100 alumno anualmente pa bay examen final. De Schakel tin cantidad minimo cu prac-

ticamente ta haya les individual. Na bon Hulandes: ta compara 'appels met peren'. Riba e tipo di dato aki un mandatario ta basa su escogencia? No comprende nos malo, nos ta desea di mira mehoracion den e prestacionnan di tur scol na Aruba. Pero ora bo kier mehora, bo mester sa promer kico bo ta bay drecha pa despues sa con pa hacie. Bo ta bay duna un par di hende, cu tin nan experiencia den enseñansa, responsabilidad pa un scol cu un publico cu un background socio-economico totalmente opuesto na loke nan a haci te awor, cu tur respet pa nan empeño, pero esaki (Colegio San Nicolas) ta completamente otro 'ballgame'.

Otro trabao den pura cu nos ta mira ta e reinscripcion pa tereno di huur, unda ta simplemente gara tur procedimiento di pasado benta afor y confronta especialmente e cunukeronan di hopi aña, cu ta pertenece na e grupo generalmente menos conoci cu computer y tur cos cu tin di haci cu comunicacion digital, pa claba nan cu poco proceso cu nan no tin ni un idea ta con esaki ta bay. Pero si nan no cumpli, nan ta perde tur nan derecho. Esaki ta parce nos no solamente un falta di consideracion, sino un falta plano di respet. Ta facil pa djis asumi cu tur hende na Aruba sa mancha nan asuntonan online y e 'bieunan ey no mester maha', esey en todo caso ta parce e pensamiento na e ministerio y departamento concerni.

Y laga nos pensa cu ta esaki ta e idea (eroneo) cu nan tin, pa nos no haya nos den teritorio di esnan cu ta kere cu tur esaki ta un set up pa kita tereno di hende. Nos no ta saca e conclusion ey y nos ta subraya e pensamiento cu e terenonan cu tin, y nan ta scars, mester ta disponible pa actividad economico, sigur den e periodo aki di crisis. Sin embargo, si esey ta asina, ta pakico nos no ta tende nada di un mancho coherente, y perefieriblemente conhunto, di e ministerionan envolvi? Kico nos ta bay haya den e tempo cu ta bin, un emision di tereno na hende cu ta mas cerca di e partidonan den coalicion, y menos escogencia a base di plan solido di negoshi? Ta masha bunita cu ta existi business plan di e empresarionan di futuro, pero ningun caminda ta haya e criterionan di desaroyo planifica, cu ta e 'cinta di midi' cu cual ta midi un y tur?

Nos a comprende caba cu asina leu nos mandatarionan no a yega. "Boso mester comprende cu ta tempo di crisis. Nos ta haciendo... cos." Sin planificacion, aparentemente.

Argentina: Personal di delivery a protesta pa mayor siguridad memey di pandemia

BUENOS AIRES
(France24) - Trahadonan di plataforma como Rappi, Uber Eats y Glovo a sali riba cayanan di Buenos Aires pa reclama miho

condicionnan salarial y sanitario pa loke ta trata e desarojo di e labor cu cual nan ta transporta alimento, medicamento y otro productonan esencial.

Protegi cu mondkapje y haciendo distanciamiento entre nan motocicleta, grupo di empleadonan cu ta haci delivery a manifesta cu no ta

conforme cu e condicionnan den cual nan ta traha pa aplicacionnan como Uber Eats, Rappi y Glovo na Argentina.

E personanan aki, cu den tempo di pandemia a bira trahadonan crucial pa e distribucion di alimento, medicamento y distinto producto esencial, a lanta nan voz den un protesta cu a wordo graba y comparti riba rednan social pa usuario di Buenos Aires.

Di acuerdo cu loke un di e dirigentenan di e gremio aki, Maximiliano Martinez a señala, e peticionnan pa un miho pago y recepcionnan di elementonan di bio siguridad a wordo eleva pa Ministerio di Trabou.

“Nos kier un aumento di 100% di loke nos ta cobra pa

cada biahe. Nos entrada ta congela desde 2018 y e porcentahe ey a sufri impacto di inflacion, nos mester elementonan di siguridad pa cu e enfermedad. Nos ta traha 10 ora pa dia. E ganashi di empresanan a aumenta”, Martinez a enfatisa.

Ta calcula cu pa cada biahe di entrega di e servicicionan aki ta gana entre 0,78 cen di dollar y 1.14 dollar, segun e distancia cu e pedido ta rekeri.

Desde 20 di maart, dia cu medida di aislamiento obligatorio ordena a drenta na vigencia pa orden di Gobierno di presidente Alberto Fernandez, e trabou di miles di repartidonan a bira un actividad crucial. Sinembargo, aunke nan ta asumi riesgonan, nan ta sigui traha sin haya un salario adecua.

Colombia: Medellin lo tene prome Feria de las Flores sin publico

ANTIOQUIA (ElTiempo/Vanguardia) - Feria de las Flores version 1,0 lo por ta e titulo di aña 2020 pa e fiesta mas tradicional di e hende paisa.

E pandemia a pone henter mundo cerca di un collapse economico y social, loke a hiba e alcalde di Medellin, Daniel Quintero pa utiliza e hermentnan virtual, pa no laga su ciudadanonan sin e celebracion aki, cu tin como espectaculo principal e Desfile de Silletteros.

“Mi ekipo a puntra caba si e Feria de las Flores a wordo cancela, mi a bisa no di nin-

gun manera. Por ta cu no lo bay ta igual, pero nos no lo detene”, Quintero a skirbi riba su cuenta di Twitter dos siman pasa. E anuncio a causa polemica memey di e emergencia mundial pa COVID-19.

“Alcalde, na e momentonan aki ken por tin interes pa e Feria de las Flores? Nos tin cu atende e emergencia pa loke nos ta pasando, e otro aña ya lo por pensa riba esey atrobe”, un ciudadano a skirbi na su cuenta e dia di e anuncio.

Otronan a defende e decision, entre otro rason, pa e miles di persona cu ta de-

pende economicamente di e fiesta aki. Cu e dianan, e controversia a bin disparciendo, specialmente pa motibo cu Alcaldia a bisa claramente cu lo bay ta un feria sin publico.

Por ehemplo, e recorrido di e 420 campesino di Santa Elena -un pueblo di 2000 habitante, cu ta na region Norte di e capital antioqueño- cu su silleta riba nan lomba y cu cada luna di augustus ta transforma e asfalt den un tapijt multicolor di flornan, no lo tin espectador riba e cayanan, pa prome biaha den su 62 aña di historia.

Lina Gaviria, secretaria di

Educacion, a conta cu nan ta trahando pa por hiba pa e comunidad paisa un Feria de las Flores “no presencial”. “Nos lo propone un feria cu

a traves di TeleMedellin, di canal di tv local y di ‘streaming’, nos lo yega cu diferente espectaculo”, el a bisa.

Industria Mexicano di fabrica y construccion a cay pa via di coronavirus

CIUDAD DE MEXICO (Infobae) - Actividad industrial na luna di maart a cay cu 3,4% pa luna, un atraso mayor desde aña 2009, principalmente afecta pa un caida di e actividad di manufactura y di construccion, instituto local di estadistica a informa ayera diamars.

E instituto a bisa cu den su comparacion interanual, e caida na industria local tabata di 5,0%, e mayor reduccion registra den mas di un decada. E tercer luna di e aña aki, e actividad industrial a acumula 13 luna di caida.

E sector construccion a cay un 7% interanual na maart y e manufacturero a sink un 6,4% segun cifranan oficial, mientras cu actividad minero a subi 1,5%.

Pa 2020, analistanan di sector priva cu a wordo consulta pa Banco di Mexico ta pronostica un crecimiento di 1,08%, mientras cu Banco Mundial ta calcula un aumento di 1,2% na medida cu inversionnan lo subi.

Republica Dominicana: Varios caso di mucha fayeci di Covid-19

(DiarioLibre/LoopBarbados) –Entre e victimanan mortal na Republica Dominicana a causa di coronavirus Covid-19, tin ocho caso di menor di 19 aña. Ministro di Salud Publico Rafael Sanchez Cardenas a informa cu e mortonan entre menor ta sigui aumenta.

El a informa cu pa ayera, 12 di mei, tabatin na e pais registra 402 morto, mientras cu a detecta te na e momento ey 10.634 caso di e virus.

E mandatario a indica cu di e menornan di edad cu a fayece, tres tabata bao di edad di un aña, dos di edad un pa cuatro aña, y di 10 pa 19 aña tabatin tres caso.

Sanchez Cardenas a bisa tambe cu actualmente no tin mucha interna den Hospital Infantil Dr. Robert Reid Cabral, cu coronavirus.

Fondo di Nacionnan Uni pa Infancia (UNICEF) a haci un yamada pa apoya nan respuesta humanitario na fabor di e muchanan afecta pa e pandemia di Covid-19, debi na e aumento cu ta refleha e devastador consecucionan socio-economico causa pa e enfermedad y e necesidadnan creciente di e famianan.

“Na medida cue brote ta drenta den su di cinco luna, e costonan di compra di suministro y di transporte, y di cumplimiento cu e deber di proteha, ta aumentando

drasticamente,” e entidad a informa a traves di un comunicado di prensa.

Director ehecutivo di UNICEF, Henrietta Fore, a splica cu e pandemia ta un crisis di salud cu ta convirtiendo

rapidamente den un crisis di derecho di mucha. “E fondonan ey lo yuda nos responde e crisis, pa recupera di e consecucionan y pa proteha e muchanan di e repercusionan,” el a agrega.

Cientos di miyones di mucha na mundo tin dificultad pa haya acceso na servicionan esencial manera atencion di salud y inmunisacion sistematico, loke por habri e posibilidad di un aumento significativo di mortalidad infantil.

Venezuela: No por hospitalisa tur pacient di Covid-19

(LaPatilla) - Venezuela no tin capacidad pa hospitalisa tur pacient cu coronavirus. Di acuerdo cu loke varios especialista a splica, e decision di regimen di Nicolas Maduro di interna tur e personanan contagia cu Covid-19 ta un medida ariesga y innecesario, ya cu no tur pacient mester un cama.

Edgar Capriles, representante di e Comision Cientifico nombra pa Juan Guaido, a splica cu e pacientnan cu ta asintomatico por pasa nan tempo na cas den cuarentena social. “Hospitalisa tur e hendenan ey ta algo innecesario, e pais no ta conta cu e capacidad pa atende tur e pacientnan ey. Nan ta pone mas presion riba e hospitalnan cu no tin e recursonan y personal pa tur esaki.”

E experto ta señala cu gobierno mester busca e manera di mantene e centronan publica mas desocupa posible, pa un posible brote di e pandemia, pa garantisa mayor operatividad

posible.

“Loke mester haci ta crea campaña di concientisacion pa e poblacion. Tristemente nos ta mira con e mensahe nan cu ta difundi a traves di medianan di comunicacion ta campaña propagandista. Mensahe cu ta realza papel di gobierno den e situacion aki y ta algo contraproducente,” e especialista ta splica.

Cesar Ribas, ex-coordinador di e grupo medico Lara Entera por la Salud, ta comparti opinion di Capriles y ta bisa cu ta necesario mantene e mayor cantidad di cama disponible, ya cu e propagacion rapido di e enfermedad ta haci cu e casonan por multiplicar di un dia pa otro.

“Nos ta aplaudi e iniciativa di gobierno di kier vigila di cerca tur e posible agentenan di contagio pero no por satura tur e centronan di salud. Te awor nos curva ta plano, pero por yega e momento den cual nos mester mas cama,” e ta señala.

Regla nobo pa cafe: laba man y no mas cu cuatro persona na mesa

AMSTERDAM (DutchNews.nl) – E lobby group KHN di industria hotelero a elabora liñanan di guia pa cafe y restaurant pa sigui unabes cu nan ta ser permiti pa habri parcialmente desde 1 di juni.

E liñanan di guia cual RTL Nieuws a wak, ta basa riba medianan grandi di e reglanan di gobierno cu a ser presenta siman pasa, pero ta inclui extra medida di higiena adicional. Por ehemplo, invitadonan mester laba nan man ora na drenta un cafe of restaurant y mester contesta preguntanan di nan salud. E personal tambe por rechasa e entrada na clientenan si ta ser sospecha cu na por tin sintomanan di coronavirus.

Personal lo tuma nan pedido mientras cu ta para 1,5 meter di e clientenan cu ta sinta na un mesa of bar. RTL no ta splica con e clientenan lo ricibi nan bebida of cuminda. E invitadonan solamente lo ser atendi si nan tin un reservacion, y no mas cu cuatro persona por sinta na un mesa, alo menos cu nan ta di mes un hogar.

Gobierno tambe a bisa cu e cafenan y restaurantnan no por tin mas cu 30 persona den e empresa, incluyendo personal. Unabes cu e clientenan a bay, e mesa, stoel y menunan mester ser haci profundamente limpi.

Falta di cooperacion structural den cuida medico

ZOETERMEER – Asociacion di Medico Antiano (AMA) a haya 80 registracion di personal di cuida Caribense na Hulanda pa bin yuda na e islanan. Toch e ministerio hulandes no a considera nan ora di compone e team di emergencia pa Corsou. Pero a scochi pa personal di cuida for di Merca.

Thaïs Thong, presidente di AMA, ta bisa cu e asociacion tabatin contacto cu gobiernonan di e islanan y tambe cu e hulandes di Salubridad (VWS). “A reaccion entusiasma y nos a laga na e islanan pa indica di kico tin necesidad.”

Asina mes e Ministerio Hulandes di VWS no a considera e 80 registracionnan di AMA ora di compone un team di emergencia. Pakico no? “A scochi pa un solucion

di emergencia cu un team di IC for di Merca”, un vocero di ministerio a splica. “Tam-poco nos no kier a competi cu e necesidad di medico na Hulanda.” Esaki ta segun Retkaribense.

Tong ta compronde esaki, pero e ta bisa cu e chens cu den un tiro ta kita masha hopi medico ta masha chikito. Tambe pasobra e trahadonan den cuida cu a inscribi seca AMA ta bini for

di henter Hulanda. “E situacion na e islanan ta di un escala mas chikito compara cu Hulanda. Ademas e seriedad di e brote ta diferente pa cada isla.” Entretanto AMA e siman aki na peticion di VWS a haci un yamada nobo especificamente pa medico i enfermero di IC Caribense.

Segun dokter di pulmon Johnny Daflaar ta falta cooperacion den Reino ora ta tra-

ta di cuida. Daflaar tin mas cu binti aña ta traha na Hulanda pero e ta vigila e cuida na su isla natal bon. E mes tambe ta dispuesto pa yuda na su isla. “Antes tabatin un cooperacion excelente entre e hospital di Corsou i Hulanda. E structura riba termino largo ta falta awor.”

Daflaar tin mas cu binti aña relata na Hagaziekenhuis na Den Haag. For di 2007 e ta traha tambe na Langeland Ziekenhuis na Zoetermeer caminda el a duna un contribucion importante na e lantamento di un departamento di pulmon. Den añanan 90 el a traha 2 aña na Sint Elisabeth Hospital na Corsou.

“Tabata un tempo masha instructivo. Tabatin hopi posibilidad pa haya practica como estudiante medico y nan por a haci parti di nan

educacion como especialista pa algun specialismo na e isla. Bo por a haci esaki tambe na e hospital na Boneiro. Tabatin un bon organizacion.”

Segun e dokter di pulmon e organizacion aki a pay atras pa diferente motibo caminda e situacion financiero di e isla ta un factor importante. “E no ta incorpora structuralmente den e organizacion y e ora ey bo ta dependiente di algun fanatico. Mester traha un brug pa medico hoben Caribense cu ta studia na Hulanda.

Un educacion medico completo lo no logra pero si cu bo por haci parti di bo educacion. Esaki ta bon pa e mediconan hoben y bon pa e isla den termino di conexion y cooperacion na cuida na e isla’.”

Studiantenan ta pidiendo mas prestamo

AMSTERDAM (DutchNews.nl) – E abolicion di e subvencion na 2015 no haci cu menos estudiante ta bay universidad, pero nan ta pidiendo prestamo substancialmente mas placa, segun un investigacion

nobo di e grupo di experto economico di gobierno CPB. E investigadonan a sigui e alumnonan cu tabata den e tercer y cuatro aña di scol secundario na 2012 pa wak cua opcion nan lo tuma tocante e educacion superior.

No a haya diferencia di number di alumno cu ta opta pa e universidad HBO, bisando u 85% ta opta pa un educacion superior, den linea cu añanan anterior. Sinembargo na a pidi pa presta mas placa

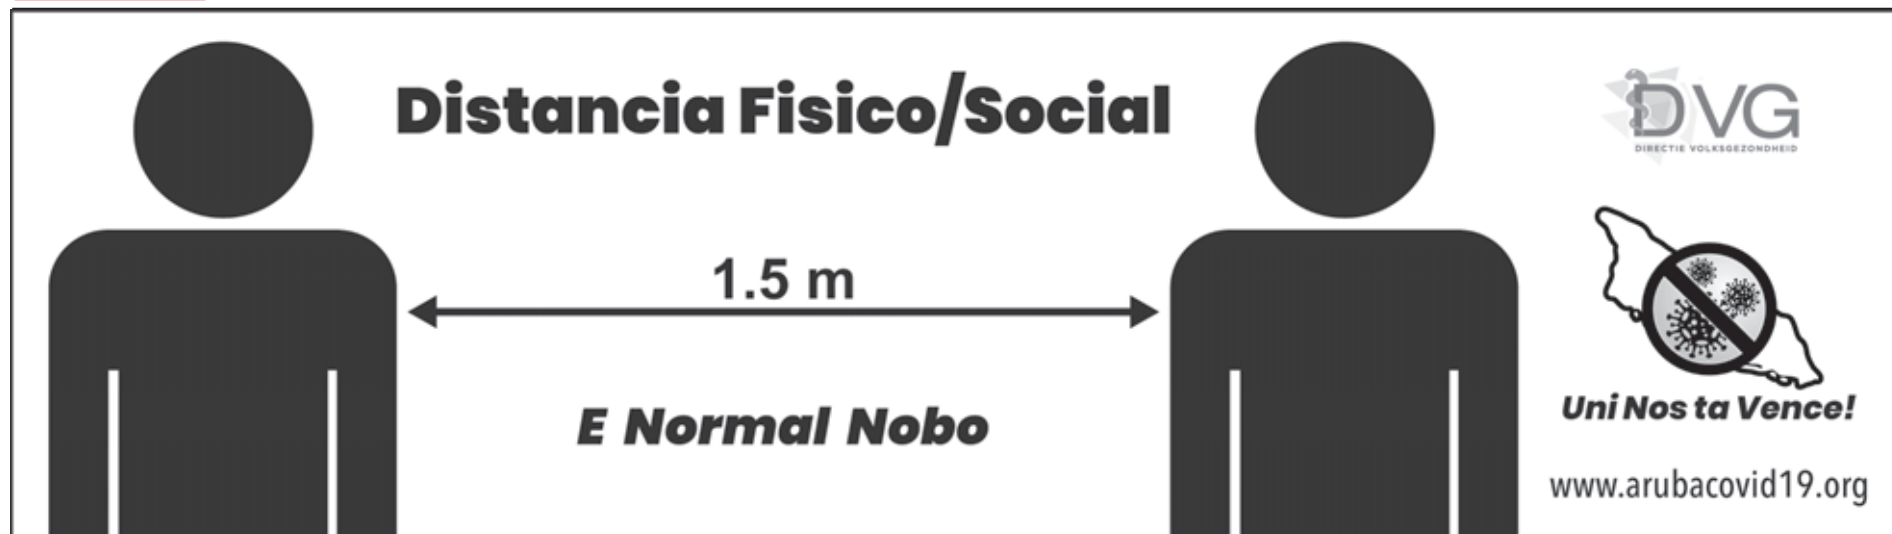

entre 500 y 600 euro pa luna y no tabatin un aumento den e porcentahe di studiantenan cu tin un trabou. Alrededor di 45% di e universidad y 60% si studiantenan universitario ta traha mientras cu nan ta studia pa obtene nan titulo.

E investigado Jonneke Bolhaar a bisa cu esaki por ta debi cu e studiantenan ta bou un presion grandi pa completa nan titulo lihe. Sinembargo e resultadonan ta muestra cu e abolicion di e subvencionnan pa tur, pero no pa e studian-

tenan mas pover, no yega cu algun grupo ta den desbentaha, el a bisa.

Tin un presion creciente politico riba gobierno pa asina debil e subvencionnan y e minister di educacion ta evaluando e sistema actualmente.

Dos di cuater partido cu ta respalda e abolicion GroenLinks y el PvdA awo ta pidiendo un cambio. Dos di cuater partido di coalicion CDA y ChristenUnie, tambe ta apoya esaki.

Cinco surfer ta muri den tragedia na Scheveningen

SCHEVENINGEN (DutchNews.nl) - Ekipo di rescate cu ta busca e surfernan perdi a wak e di cinco curpa dilanti costa di Scheveningen, pero ainda no por a recupera e curpa, polis a confirma esaki diamars atardi. Nan sa cu por lo menos 5 surfer a muri den e accidente di dialuna despues cu biento fuerte y capanan di scuma di lama aparentemente a tapa e grupo cu no tabata spera esaki.

Dos curpa a ser haya mas trempan durante oranan di

diamars mainta y otro dos a muri despues cu a ser saca di lama dialuna anochi. Segun algun raporta varios di e grupo tabata body surf sin board. Otronan a bisa cu nan tabata preparando pa e temporada di surfing cuminsa. E surfernan tabatin experiencia incluyendo dos instructor di scol di surf, Nos a bisa. Tanto homber como muhe ta entre e mortonan. Algun di nan tambe ta traha como salvaguardia, segun Telegraaf. E alcalde di Den Haag Johan Remkes, a bisa periodistanan durante un conferencia di prensa cu awo lo haci un

investigacion pa wak kico a sucede.

“ Con por ta cu personanan cu tanto experiencia y cu conoce e lugara aki asina bon a muri: Remkes a bisa. En total ta kere cu 10 persona tabata den e awa na e momento ey, un grupo di seis, un grupo di tres y un solo surfer. Tres di loke a muri ta di Den Haag, e otro dos ta di Delft, uno di cual ainda ta desapareci.

Durante fin di siman, un homber di 28 anja di Den Bosch a ser asesina mientras

e tabata practica kite surf na e costa di Zeland. Autoridadnan a bisa cu ta parce cu el a

ser atrapa pa biontonan fuerte y golpia contra e post di concret di un cas riba e beach.

Eugene Cleopa ta reemplasa presidente di parlamento

WILLEMSTAD - Eugene Cleopa ta presidente di parlamento temporalmente. E parlamentario di MAN ta reemplasa su colega di coalicion William Millerson di partido PAR.

Desde 8, Millersona ta ausente pa un periodo mas largo pa rasonnan medico. Esaki ta locual e registrado Silvin Cijntje a raporta den un carta pa gobernador. Na october aña pasa, Millersona tabata ausente di parlamento pa un periodo extendi pa motibo di cancer.

Screening pa detecta cancer lo re-inicia

AMSTERDAM (DutchNews.nl) - Recientemente minister di salud a anuncia cu lo reinicia e tres programman nacional di deteccion di cancer cu a ser suspendi debi na e brote di coronavirus. E testnan preventivo a cancer tripa, cancer di pecho y di matriz lo ser reintroduci den fase, e ministerio a bisa.

E kitnan di test pa cancer di tripa lo ser envia na comercio di otro siman, mientras cu e deteccion di cancer di pecho y cuero lo reinicia memey di juni si tin suficiente ekipo di

proteccion disponibel. “ E programanan nacional di deteccion ta un parti hopi importante di e atencion medico preventivo. E detencion trempan y e tratamento lihe por yuda hopi persona surpasa e enfermedad.

E crisis di coronavirus a hacie inevitabel un paro temporal”, e minister di salud junior Paul Blokhuis, a bisa den un sesion informativo na parlamento. Blokhuis a enfatisa cu e evaluacion lo mester ser realiza di un manera sigur y cu esaki ta depende di e disponibilidad di paña di proteccion suficiente pe personal.

Gregorio Wolff:

‘1 mei, e dia internacional di tur trahado na mundo’

ORANJESTAD - 1 mei ta keda e dia mas importante pa trahadonan na Mundo. Na Aruba e ultimo añanan sindicalistanan no ta haci nada pa conmemora e dia aki na Aruba

Pakico prome di mei y e nificacion pakico ta conmemora e dia aki.

144 Aña pasa, na 1886, na Estados Unidos, trahadonan a hiba luchanan fuerte pa un orario di trabao di 8 ora pa dia. Durante un reunion na Haymarket Square, Chicago, un bom poni a explota, segun lidernan di e accion, e bom tabata di esnan contra e accion. Pero polisnan a cuminsa tira cu arma di candela ariba demostrantenan y hopi trahadonan den accion a ser mata. Di biaha e organisadonan di e accion a ser culpa di tur cos. E temponan aya, organisa un reunion di protesta cu trahadonan tabata wordo considera un crimen. E lidernan sindical di e accion na Haymarket Square, Chicago a wordo poni preso, despues husga, hopi a ser condena na pena di morto. E temponan aya na Merca e palo di horca tabata ser uza, ora un persona ser condena na pena di morto. Otro lidernan a haya cadena perpetua. Tur esaki pa lidernan cu tabata kere den e lucha di trahadonan pa un miho futuro. Nan ta e heroenan di 1 mei.

Awe ta algo normal pa organisa un reunion di protesta cu trahadonan.

E lucha pa mehoracion di condicion di bida y trabao di trahadonan y nan famia a cuminsa hopi prome cu 1886. Pero e lucha aki, na Haymarket Square na Chicago, a percura cu casi na mundo completo, na Aruba tambe nos tin orario di 8 ora. Hopi na Aruba a lubida, no kier sa of no sa e pakico di 1 mei y con a logra e 8 ora di trabao pa dia.

E aña aki trahadonan mester a para keto un rato y wak kico ta e situacion di Prome di mei 2020. E aña aki e tabata un conmemoracion di un dia internacional di solidaridad cu e trahadonan den e situacion di un emergencia mundial. Prome di mei normalmente ta un dia cu miyonnan di trahadonan na mundo ta marcha pa demostra cu nan t'ey, 1 mei 2020 nan ta pega den nan cas pa frena e plamamento di covid19.

E situacion aki ta exige un profundo reflexion y esfuerso di nos conviccion cu e sociedad den su forma nobo, con despues di e pandemia e sociedad mester funciona pa e ta na bienestar di e ser humano no na bienestar di ganashi pa e riconan.

E clase trahado na Mundo a pasa di crisis pa crisis y semper e a Sali como e perdedo, manera e crisis di 12 aña pasa y otro crisisnan. Gobiernonan a rescata e banconan y empresanan grandi, cu biyonnan cu ta e trahadonan mester a paga pa cubri esakinan.

E politica neoliberal di austeridad, di privatisacion solamente ta aumenta e rikesanan di esnan cu ya ta bon para, mientras trahadonan ta keda cu salari-
onan abao.

Ta momento cu trahadonan y mundo sindical mester tuma iniciativa pa cambianan profundo y trece cambianan grandi den e status quo di e desaroyo socioeconomico.

E modelo di haci negoshi y tur e frutanan ta keda pa esnan cu placa mester keda pa pasado.

Trahadonan, coy e bandera di e balente luchadonan di siglo 19, kendenan na 1886 a hiba e lucha fuerte pa un trabao decente cu un orario di trabao di 8 ora. Nos mester sigui nan ehempel balente di lucha.

Mal postura di e 3 lidernan sindical.

Tocante e medidanan di gobierno pa trahadonan den sector publico ta muestra cu apesar cu Gobierno a envolvi sindicalistanan laat den e medidanan, pero sindicalistanan no a analisa e situacion corecto, pasobra un analisis bon lo a duna como

promete punto:

Cu nos ta biba den un situacion dificil financieramente pa gobierno pa motibo cu gobierno tin e tarea dificil di ta responsabel pa bienestar di pueblo na Aruba y trahadonan den sector publico mester por muestra nan solidaridad, cu e diesmilnan di trahadonan kendenan a perde nan trabao, dor di entrega un parti di nan entrada.

Di dos, sindicalistanan sa cu un “no” na Gobierno, ta pidi pa e reaccion logico di nan banda, cual normalmente ta welga. Pero no tin chens pa welga den e situacion cu nos ta den awe.

Tres lider sindical a manda carta pa Hulanda, demostrando un mentalidad di limosnero na e colonisado y despues ta pidi reunion cu Parlamento. Tur dos a resulta den un fayó.

Pues nan decisionnan tuma ta muestra cu awe nan ta luci perdi, esta nan no sa mas kico pa haci. Den pueblo tin un rechazo grandi conta e postura malo di e 3 lidernan sindical.

Sindicalistanan a perde oportunidad

Nan postura di nenga e proposicion di gobierno, ta hinca nan tambe den e posicion cu nan no ta envolvi na e forma habri manera mester, den situacion di crisis, esta ta den un bon relacion Gobierno Sindicalismo.

Awe sigur Sindicalismo mester mete cu politica, pero cu un politica pa mehora e situacion di e clase trahado. Un bon analisis awe mester ta cu sindicalismo ta join cu gobierno pa tuma e medidanan na favor di e clase trahado manera:

- Drecha of haci e canasta basico mas grandi pa tin menos abuso di supermercadonan;
- Discuti e capacidad di carga pa Aruba, cuanto hende nos kier pa biba na Aruba;
- Hunto cu gobierno hiba un politica fuerte pa defende nos medio ambiente;
- Pone fundeshi pa ora cos drecha ta mehora salarionan;
- Para dura hunto cu Gobierno contra tur flexibilidad di nos ordenansa di labor;
- Hopi mas accionnan di sindicato hunto cu Gobierno ariba diferente asuntonan.

Despues di e medidanan di Lock Down pa motibo di Covid19, sindicatonan tin e posibilidad pa reuni cu nan miembronan y cu pueblo trahado pa ricibi e miho consehonan.

Hasta no mester descarta e posibilidad di un gobierno cu representacion di mundo sindical.

Pero Sindicalismo ta bibando un otro realidad dor di e postura di e 3 lidernan, kendenan ta luci perdi y benta un banda na e momentonan clave di historia di Aruba.

Palabra ta awor na miembronan di e 3 Sindicatonan kico pa haci.

Structura di SEPPA

Enbista di e mal comportacion of mal postura di e lider maximo di SEPPA siendo un di e 3 lidernan kendenan a manda carta Hulanda a surgi e discusion ariba e structura nobo di SEPPA, cual segun algun hende, ta culpable pa esaki. Incomprendibel,

ya cu e structura nobo no a kita nada di e meta y obhetibonan di SEPPA, ni tampoco e forma di pensa di cualkier dirigente di SEPPA. Varios exponen-
tenan di Mep cada biaha ta trece e structura nobo como e faya kico ta pasando den SEPPA.

Den SEPPA e discusion pa cambia e structura a dura como 10 aña. E structura nobo ta uno moderno cu ta ser uza pa sindicatonan grandi, p.e na Europa y Merca. Durante e discusionnan SEPPA tabatin como 3 mil miembro y SEPPA como unico sindicato di tin un infraestructura completo pa funciona como un organisacion democratico di trahado, cu un sede sindical grandi cu su sala di Congreso pa como 100 persona.

SEPPA segun e structura nobo, tin un comite ehecutivo cu ta haci e trabaonan sindical, na cabes e Secretario General y un directiva di minimal 6 persona, pa controla e trabaonan di e comite ehecutivo.

Igualmente bo ta haya e structura aki den tur companianan estatal y priva na Aruba

Mesun pensamiento den gobernacion, unda tin un gobierno cu ta ehecuta y un parlamento cu ta controla.

E sistema cu tin directiva cu e mes ta ehecuta y e mes ta controla su mes, ta algo di antaño y dificilmente por funciona na un forma profesional. Bo mes no por controla bo mes.

Por ta, pa e sindicato chikito di 50 pa 300 miembro, e structura bieu ta factibel.

Cos no ta bay bon den SEPPA

Kico a pasa cu SEPPA. E secretario general mester ta un persona inteligente y balente pa por dirigi e organisacion nobo. Eynan e rabo di porco a krul. Miembronan por a experiencia cu no tin Informacion mas, no tin formacion mas, no ta forma Delegadonan y sigur no ta forma lidernan nobo tampoco. E Directiva cu mester haci e controlnan, segun ta wordo bisa, a wordo kibra, no ta existi mas. Pues no tin control mas ariba e accionnan di e secretario general y e comite ehecutivo. Miembronan no ta ser informa di nada. Ultimo eleccion den SEPPA ta data di 2013, den e congreso Anual. Segun statutonnan cada 3 aña mester tene eleccion, pero nada na 2016, ni na 2017, ni na 2018 y 2019 tampoco. Miembronan mes por controla esaki via e revistanan di SEPPA, di fin di tur aña for di 2016. Tristo, cu na mesun momento, cu tur hende y na tur caminda ta papia di integridad, den SEPPA no ta existi.

Na final di october aña pasa mi a skirbi den prensa pa dirigentenan di SEPPA informa miembronan di SEPPA, kendenan ta comite ehecutivo y kendenan ta directiva. A sali un revista na december 2019, Noticia SEPPA, cu no ta bisa nada di esey, solamente a Sali den e revista e historia di SEPPA cu ami Gregorio Wolff, a skirbi 10 pa 15 aña pasa y adapta aki y aya.

Pues e structura moderno no ta e culpa cu e situacion den SEPPA ta malo, tampoco a kita e spirito di lucha. Culpabilidad tambe miembronan y delegadonan ta carga, kendenan ta keto y ta laga tur cos pasa den SEPPA, manera ta nada.

Minister Dangui Oduber ta felicita tur trahado di enfermeria

ORANJESTAD – Minister di Salubridad Publico Dangui Oduber ta expresa su aprecio pa tur cu ta traha den enfermeria. Nan labor ta bisto entre otro den Hospital, Im-

lance, dokternan di cas, cu specialistanan, Wit Gele Kruis y laboratorionan.

Dia 12 di mei ta dia internacional di enfermeria. E dia aki ta cuadra cu e fecha di aniversario di e fundado di enfermeria moderno, Florence Nightingale. E mandatario a expresa "Awe ta un dia pa reflexiona y bisa danki na tur e enfermero/a nan trahando na Aruba y rond di mundo, specialmente den e temponan dificil aki cu COVID-19".

Minister Oduber ta recorda cu prome cu e crisis di COVID-19, Aruba tabata tin solamente 6 unidad di cuida intensivo, riba propio forsa a aumenta esaki na 21 unidad. Recientemente a aumenta e cantidad di unidadnan di cuida intensivo na 33 unidad cu ayudo di Hulanda. E gobierno aki lo sigui zorg pa tin suficiente profesionalnan disponibel den e funcion im-

portante aki. Lo sigui bin cu e estudionan di enfermeria riba nivel di HBO aki na Aruba mes y di e manera aki sigui inverti den nos profesionalnan. Minister Oduber su vision ta pa sigui mehora e calidad di cuida aki na Aruba aun mas.

Minister Oduber ta manda palabranan di pabien na tur nos enfermero/a nan y yama nan danki pa dedica nan bida na yuda otronan y tambe danki pa comparti nan compasion, experticio y confianza. Nos enfermero/a nan ta e weso di lomba den Salubridad Publico.

Un gradicimento di curason pa tur boso excelente trabounan cu boso ta haci pa nos comunidad. Un trabou noble cu boso ta haci cu curason grandi. Como Minister di Salubridad Publico nos tin gran aprecio pa boso profesion. Danki

Ansiedad, soledad y tendencia violento ta bibando den nos comunidad

ORANJESTAD - Social Crisis Plan recientemente a ehecuta un encuesta pa purba na midi con comunidad di Aruba ta manehando e 'Toque de Queda' y 'Shelter In Place' den conexio cu nos salud mental y estado emocional durante e temponan dificil cu nos ta enfrentando.

E resultadonan di nos encuesta ta muestra cu 44% di persona ta sinti hopi soledad of ta afecta nan tur dia, den e temporada aki di crisis y esaki naturalmente ta relaciona cu e "shelter in place" y tambe e restriccion cu tin pa bishita otro fisicamente. No obstante, den e temporada aki di crisis e ta importante pa haci uzo di tecnologia pa asina keda den contacto mas cu ta posibel cu bo sernan keri. Paso maske nos tin cu tene distancia fisico, nos por tene contacto social via internet y telefon.

Otro resultado ta indica cu 39% di persona ta sinti hopi ansiedad of ta afecta nan tur dia, den e temporada aki di crisis y esaki ta wordo causa pa tur e incertidumbre cu nos a wordo confronta cune, caminda hopi hende actualmente ta den un situacion hopi dificil. Hopi preocupacion relaciona cu problem-

anan financiero, necesidad di cuminda y preocupacion pa salud di famia ta locual cu nos a midi como e factornan mas comun pa por causa e ansiedad aki. Ta importante pa realisa cu e ansiedad y stress den un termino largo por causa depresion cu ta un enfermedad mental y ta rekeri ayudo profesional. Nos profesionalnan t'ey pa yuda bo den e momentonan dificil aki, por yama 2810909 tur dia entre 2pm te cu 8pm, pa asina haya guia y sosten psicologico.

Ora ta toca e tema di violencia fisico y agresion, e resultadonan ta muestra cu un 90% di persona ta indica cu nan no ta sinti e tendencia violento aki desde cu e crisis aki a inicia y solamente 10% ta indica cu nan ta wordo afecta door di e tendencia violento. Pero ora nos compara e cifra aki cu e resultadonan di violencia verbal nos ta observa cu 52% di persona ta indica di haya e tendencia pa zundra, grita y papia palabra malo cu famia, yiunan of conocinan mas hopi of ta afecta nan tur dia.

E resultadonan ta demostra cu e violencia verbal tambe ta eherce den nos hogarnan y esaki na su turno por crea mas stress y mas ansiedad y por hasta resulta na un sentimiento mas profundo di soledad, si un persona no

por comunica cu otro den cas. Caminda ambos e adultonan y e muchanan ta mas vulnerabel ainda pa bira victima di abuso. Si bo persona mester di ayudo of conseho tocante abuso di mucha por yama Bureau Sostenemi na 5881010. Si bo ta un persona

‘Contenido di carta di CAft a bolbe leak’

ORANJESTAD - Nos a tuma nota di un articulo di Antilliaans Dagblad riba e conseho di CAft riba presupuesto 2020. Nos ta asombra cu e matutino tin e detayenan di e conseho aki caba, mirando cu e no ta publico ainda. Gobierno no a duna nan reaccion, pero ya caba e documento aki su contenido ta conoci. Ta di lamenta cu ta saca cierto punto di e carta aki for di contexto pa uzo politico.

Elogio pa maneho financiero di gabinete Wever-Croes

Ta importante pa cuminsa na señala cu prome cu e crisis di COVID-19 a impacta mundo, presupuesto 2020 di pais Aruba lo a conoce un surplus. Esaki lo a marca un era nobo, un era di finanzas saludabel

y un era di bon gobernacion. Liderazgo di nos Prome Minister, Evelyn Wever-Croes for di 2017 a bin ta conduci na finanzas saludabel, un economia cu ta crece (segun Banco Central), un rebaho di nos desempleo (segun rapport di Departamento di Labor) y un turismo cu lo a sigui crece na 2020 cu 2.8%. Te hasta sr. Knops a reconoce e pasonan significante aki publicamente.

Begrotingswijzinging/presupuesto supletorio

Den e carta di CAFT nan ta indica cu lo mester bin un cambio den e presupuesto 2020. Y ta e punto aki opositornan politico ta trata di saca for di contexto. Ta mas cu logico cu CAft ta señala esaki mirando e crisis actual cu ningun hende a premira. Gobierno mes durante trata-

mento di presupuesto a indica cu lo entrega un presupuesto supletorio na su debido tempo. Parlamento di Aruba a indica cu durante e “halfjaarlijkse rapportage” lo trata cambionan necesario.

Presupuesto realistico ta e punto di salida

Mester remarca si cu pa Fraccion di MEP, mescos cu pa Gabinete Wever-Croes, e punto di salida ta keda un presupuesto realistico. Ta presupuestonan irealistico di Gabinete Mike Eman aproba pa CAft a hinca Aruba den e crisis financiero. Y ta pa e motibo ey nos no ta comprende dicon lo mester presenta un escenario irealistico, basa riba proyeccionnan, di un supuesto apertura di nos frontera. Mirando cu e presupuesto actual ta basa riba proyeccionnan di Banco

Central, Departamento economico y e proyeccionnan aki a te hasta conta cu aprobacion di IMF.

E “politico” gradus di CAft

Nos ta spera cu CAft sa di mantene su posicion di consehero imparcial. Aunke e ta remarcabel cu un biaha mas informacion confidencial ta “leak”. Esaki despues cu tawatin un disputa grandi den CAft, caminda Gradus, presidente di CAft, no a tene cuenta cu aspectonan social y economico pa Aruba, manera señala pa e representante Arubano.

For di 2008 te cu 2015 e presidente di CAft, esta señor Gradus, tawata director di e instituto científico di e partido politico Hulandes CDA. Manera ta conoci CDA ta e

partido Hulandes cu tin vinculonnan estrecho cu AVP. Ta hopi remarcabel cu nan ponencia y actitud pa cu Aruba a cambia drasticamente, apesar cu Gabinete Wever-Croes a sa di transforma un deficit di 444 miyon florin den un surplus di 46 miyon florin.

Pa conclui

Otro luna Parlamento di Aruba, durante un reunion publico, lo haya un presentacion di Gobierno riba con e crisis actual ta desaroyando y especificamente kico su impacto ta riba nos finanzas publico y economia. Esaki atraves di e mocion cu Parlamento a aproba na 2018, pa procura pa haci cambionan necesario na tempo pa evita malgastamento di recursonan manera Gabinete Mike Eman tawata haci.

Ex Prome Minister Nelson Oduber:

“Si ta caba kier caba cu Aruba anto hinca e coruptonan di AVP den gobierno pa nan caba cu locual por a resta ainda”

ORANJESTAD - Den tempo dificil bo ta conoce kendenan ta bo amigonan. Tempo cu mi a firma dia 13 di juli 1990 pa saca e fecha di independencia di 1996 for di Statuut - despues cu Hulanda a pone na 1993/94 yen di condicion cu segun nan ta Tweede Kamer a pone nan p’asina a cambia e Statuut - mi a sinti cu Hulanda tambe tabata den wega cu

AVP. Lamentablemente nos gobierno cu a cuminsa cu 12 asiento na 1989, nos di MEP a perde den e eleccion 1993 un asiento y nos a keda cu un gobierno di solamente 11 asiento den un coalicion cu PPA y ADN. Aki Hulanda - mirando e resultado di eleccion cu MEP tin 9 asiento y AVP tambe tin 9 asiento - a bin cu e idea cu na Aruba mester di un “brede draagvlak”, pasobra pa cambia Statuut den parlamento mester 2/3 parti.

Firmamento di Protocol 1993:

Riba un anochi na october 1993 ministro encarga cu e.o. Asuntonan Arubano Ernst Hirsch Ballin a yama mi laat den anochi na telefon bisando mi cu Prome Ministro Ruud Lubbers tin problema pa cambia Statuut, pasobra Tweede Kamer a pone yen di condicion y cu mi mester yuda. El a bisa mi cu Lubbers kier mi bin Hulanda pa discuti con pa sali afo. Na final di e combersacion e di cu mi cu Lubbers kier pa Henny Eman di AVP tambe bin ya cu e ora Hulanda tin sigur cu Aruba lo cumpli. Como cu pa mi sacamento di e fecha di 1996 ta hopi importante pa e tranquilidad, siguridad y claridad pa Aruba su futuro

mi a bisa cu ta bon, ya cu si esaki ta yuda, mi no tin ningun problema. Na final Lubbers y ami a firma na october 1993 un protocol cu a habri e caminda pa saca e fecha di independencia for di Statuut.

Palabra di AVP no bal nada:

Tambe den un comunicado cu Hulanda a saca tabata bisa cu e 2 partidonan grandi ta garantisa cu lo ehecuta e protocol y lo bay haci esfuersonan pa purba traha hunto. Nos di MEP - sin tin conflicto cu nos partnernan politico ADN y PPA - a bisa nan cu nos ta termina e coalicion (cu por a bay te 1997) y ta bay busca un brede draagvlak cu AVP. Aki a start e wega cu e gobierno mester bira demisionario prome cu cuminsa papia y al final AVP a core pa nan responsabilidad bisando cu nan hendenan no kier pa traha cu MEP y ta un gobierno di 3 luna so nan kier pa yama eleccion nobo. Mi a bisa nan cu esey no a ser palabra y mi a yama eleccion nobo dia 27 juli 1994, unda cu nos a keda cu 9 asiento y AVP a bay forma 7 año di gobierno cu OLA y nos di MEP pa coopera a ser manda den oposicion. Di e tempo ey ami tanten cu mi ta na bida nunca mas lo reuni corda discuti cu AVP y un Eman como lider

ariba ningun gobierno, pasobra nan palabra no bal nada y nan no ta hendenan di confia cu futuro di Aruba.

E convenio entre Mike Eman y KvK:

Kico ta e caso awor? AVP a perde 10.000 voto ultimo eleccion, esta 4 asiento y MEP no tabatin ningun alternativa di traha cu RED y POR. Echo ta cu bo no por bay goberna cu e mesun hendenan cu a destrui nos pais den tur sentido di palabra. Na caminda pa sirbi interes ahenos, un miembro cu un cantidad miserabel di voto a horta un asiento di MEP y a debilita e gobierno di 12 pa e mayoria minimo di 11. Di e momento ey Hulanda, CAft y AVP a ‘hole sanger politico’ y - mirando e discusionnan constante entre e 2 partidonan cu 2 y 1 asiento y mirando e mega debe y awor como clabo ariba caha di morto di Aruba e maldita Corona Virus - Hulanda a saca su caha di triki y trampa di 1993/1994 cu mediante CAft ariba instruccion di gobierno di Hulanda ta keda pone condicionnan pa e presupuesto. Al final cu ayudo di Simar, SPA y SEPPA cu a manda 2 carta Hulanda cu mester baha gastonan di personal, esta cu mester kita e 1500 ambtenaarnan cu Mike

Eman a conveni cu Camara di Comercio na october 2006 y tambe pa caba cu e fondonan lucrativo di pensioen, segun AVP.

Een gewaarschuwd man telt voor twee:

Mirando cu e gobierno aki ta sosteni pa 11 parlamentario, CAft sa cu esaki ta ‘kamikaze’ politico pa e coalicion y cu esaki ta bay trece caos, intranquilidad, desorden completo aki. Ami semper a biba cu e principio di ta prefera muri ariba pia y no bira mendigo di Hulanda, CAft y AVP. E actitud di hopi politico di aki mes cu tur e discusionnan di salario, Serlimar etc. a habri porta hanchu pa nan drenta aki. Tin hende aki cu a contribui na esaki! Si ta caba kier caba cu Aruba a la Venezuela anto hinca e ladronnan, e coruptonan di AVP den gobierno pa nan caba cu locual por a resta ainda! Na Hulandes tin un dicho ta bisa cu “Een gewaarschuwd man telt voor twee”. Mi opinion cu mi ta muri cune a base di 36 año den politica y a conoce pushi y cacho den politica! Un contribucion a base di mi experiencia di a pasa den hopi turbulencia politico y a siña conoce ken ta ken! Finalmente, “Mas di nan bo trata, mas lo bo keda stima bo cacho”.

Parlamentario, Marlon Sneek (AVP):

‘Gobierno no kier duna claridad riba su plan di recuperacion financiero y economico’

ORANJESTAD - Ya for di luna di maart durante di reunion di Parlamento, lider di fraccion di AVP, Marlon Sneek a muestra cu e momento a yega pa gabinete Wever Croes duna Parlamento y pueblo den su totalidad, kico ta su plan pa recuperacion financiero y economico pa resto di 2020.

Segun Sneek gobierno no ta dunando indicacion kico ta su plan completo pa loke ta e proximo lunanan nos dilanti, con ta bay atende cu e situacion cu a presenta y kico ta e pasonan cu e lo tuma.

“No tin scenarionan ainda stipula con gabinete Wever Croes ta bay haci, si henter e maneho lo ta den fase y con lo checuta esaki manera kico tin cu haci den e proximo tres luna, kico tin cu haci den seis luna y kico nos mester y kico nos tin cu haci den nueve luna.

Awe nos ta haya nos mes dilanti di un plan di gobierno cu ta papia di nueve luna directo, manera cu no ta bay tin ningun recuperacion mas, manera cu no ta bay tin ningun entrada mas pa e pais aki, den e siguiente nueve lunanan nos dilanti.

Esey ta lanta preocupacion grandi y nos ta sigui haci pregunta riba e documento cu nos a ricibi for di gobierno y nos ta puntra si esaki ta realistico?

E pregunta tabata si gobierno a discuti esaki caba den su contenido hunto cu Hulanda y kico esaki ta bay nifica, manera ki condicionnan tin mara na esaki, cu esaki lo bira parti di e RFT “Rijkswet Financiële Toezicht”?

Gobierno di Hulanda a pone condicion pa duna Aruba espacio pa bay haci prestamo hunto cu nan? Y si esaki ta e caso nos lo kier informacion for di Gobierno si tin condicionnan mara na esaki y si tin kico e condicionan aki lo ta y si ta RFT lo ta un di e condicionnan cu ta riba mesa?

Mirando e cu carta di CAft cu ta ariba mesa nos mester conclui cu gobierno a mal informa Parlamento.

E lider di fraccion di AVP tambe a muestra cu informacionnan cu a keda publica den medianan caminda cu CAft pa medio di su Presidente Raymond Gradus ta muestra cu e comision di supervision financiero ta sali di e punto di bista cu gabinete Wever Croes mester adapta e presupuesto 2020 na un escenario cu dentro di tres luna lo habri frontera bek y di e forma aki limita e deficit presupuestario y crecimiento di e debe externo.

“Aki un biaha mas ta muestra cu gabinete Wever

Croes no ta implementa loke semper el a propaga, esta di ta traha cu hopi transparencia, ya cu ta for di otro canalnan tin cu ricibi e tipo di informacion aki.

Parlamento mes no ta na altura ainda di un of otro carta di recomendacion di CAft na gobierno caminda ta sugeri un escenario totalmente diferente na loke gobierno a presenta na Parlamento mientras cu e ‘noodbegroting cu a wordo aproba pa fraccionnan cu ta sostene gobierno, ta papia di un lockdown di nueve luna te cu final di 2020.

Aruba ta pasando den un situacion sumamente delicado, caminda ta rekeri esfuerso di tur instancia y persona involvi, cual sin duda ta rekeri mas honestidad y mas transparencia di parti di gobierno.

E recomendacion nobo di CAft pa cu cambianan den presupuesto 2020, cu ta drestando awor, ta muestra cu keto bay tin e impresion cu gobierno di Hulanda ta sigui bisa gabinete Wever Croes no a cumpli cu palabracionnan concreto haci pa reduci gasto di personal.

Den e proceso awor pa haya ayudo financiero den e tempo dificil aki, Hulanda kier mira gabinete Croes cumpli cu palabracionnan serio haci den ultimo dos aña y mei,” lider di fraccion di AVP, Marlon Sneek a declara.

Booshi Wever (UPP):

‘E maneho di e minister di enseñanza ta manera un barco sin capitan y sin direccion’

ORAJESTAD - Un requisito importante di un bon docente ta dominio completo di e materia cu e ta presenta na su alumnonan y e habilidad pa por comunica esaki den un forma cla y preciso. Si no cumpli cu e requisitonan aki e docente ta core peliger di perde control riba e klas loke lo conduci na falta di respet, atencion, cooperacion y prestacion di e alumnonan. Esaki ta hustamente loke ta tumando luga awor aki cu e maneho bruha di enseñansa door di e minister actual. E agenda di e minister ta un misterio grandi pa mayoria di e cuerpo di docente na Aruba. E minister ta haci declaracionnan na prensa encuanto su maneho sin cu esaki a wordo delibera y comparti di antemano cu e docentenan.

E dirigentenan den enseñansa na Aruba parece di a harta cu e forma di procede aki di e minister y a cuminsa vocifera nan disgusto y desacuerdo abiertamente. Nos por a tuma nota di diferente articulonan cu a sali publica di e.o. e directora di SKOA na unda ta refuta ponencianan di e minister. E motibo di esaki ta pasobra e directora tin e tarea y responsabilidad di cumpli cabalmente cu e deber di duna e docente y alumnonan direccion y claridad kico ta wordo exigido di nan. Den cumplimento di e deber aki no tin espacio pa duda, pasobra esaki lo conduci na caos y desorden cu por nifica cu e directora ta wordo retira dor di SKOA.

Den politica e exigencia pa cumpli cabalmente cu e tarea di duna direccion y claridad NO ta existi NI pa e minister NI pa parlamentarianan. E minister, particularmente den e constelacion actual, na unda e gobierno di coalicion no por duna su mes e luho di perde ni un voto di sosten den parlamento, parece di tin e poder absoluto di haci y deshaci sin cu e ta wordo desafia of cuestiona door di su coleganan of door di parlamento. Esaki tabata p.e. e caso cu ex-minister Otmar Oduber cu a haci y deshaci y parece e minister di enseñansa no kier keda atras. Minister Lampe den e dos aña y mey a logra di “jaag” e cuerpo di docente “tegen zich in het harnas” cu su maneho manera un “ongeleide projectiel”. E minister a hay’e obliga pa pasa parti di su trabou pa Min-Pres, pa evita mas desorden, pero aki cos no a caba.

Aruba ta inverti un gran parti di su presupuesto na enseñansa y toch e “return of investment” di enseñansa ta laga hopi di desea. Un ex gobernante di un partido cu ta conforma e coalicion actual, recientemente a declara cu “e realidad

na Aruba ta cu un porcentahe halto di estudiante ta cay na caminda. No tin ni 3% di academico, ni 10% cu a caba cu titulo di enseñansa profesional (beroeps-sonderwijs) y ni 25% di nos poblacion tin un MAVO diploma”.

Parce cu esaki a yega na horea di e minister y di gobierno, pasobra recientemente Ministerraad a bay di acuerdo cu un proposicion di e minister aki pa duna subsidio na e scol priva “de Schakel”. Pero e minister ta bay mas leu, ya cu 28 di april ta firma un decreto pa oficialisa un acuerdo di cooperacion entre “de Schakel” y Colegio San Nicolas. Y pa despues traspasa e mando over totalmente pa “de Schakel”. Dicon? Ta usa aki e motibo, cu “de Schakel” tin un porcentahe halto di exito den examen. Pero esaki ta straño si ta 5 alumno so tin den un klas? Kico ta para di e “rechtspositie” di e docentenan di Colegio San Nicolas?

Obviamente ta duna esnan cu ta dirigi Colegio San Nicolas un “brevet van onvermogen”, mientras cu den e mesun rosea ta duna subsidio na un scol priva. Mientras cu scolnan ta sclama pa un ayudo financiero, pa asina por cumpli cabalmente cu nan responsabilidad pa “pa crea un bon ambiente profesional di trabou den cual alumno, mayor y personal ta sinti nan contento”.

Ainda por corda con tempo cu ex-minister Hooyboer a duna International School un subsidio di algun miyon, esnan cu awe ta den gobierno, como oposicion a critica e intencion di e ex minister, mirando cu a duna subsidio na un school priva. Awe minister Lampe, de facto ta haci mesun cos y te hasta ta bay mas leu ainda dor di traspasa un scol publico y hacie uno priva!!

Kico mas tin den e “sprookjes” di e minister aki? Tin mas scol lo bay bira victima di e aventuranan aki?

IPA lo bay cay bou di UA? Interesante ta kende lo bay dirigi e “Stichting” aki!!

E hecho cu e Minister ta sigui biba den su mundo di ilusion y di fantasia y e falta di comunicacion y dominio di e materia lo bay tin consecucionnan devastador pa e futuro di enseñansa na Aruba. Di gobierno no por spera atrobe nada. Ban wak si Parlamento “nobo” actual lo bay tin e pudor di yama e minister pa cuestiona y responsabilisa su maneho manera un “ongeleide projectiel”. Probablemente lo bay trat’e cu cautela pa evita final di e gobernacion. En berdad ta conta: “Politics is about survival! But at what price?”

Minister Plenipotenciario Joselin Croes:

University of West Florida cu prijs special na studiantenan Arubiano

ORANJESTAD – Recientemente Minister Plenipotenciario di Aruba na Washington DC a informa cu studiantenan di Aruba por studia na University of West Florida na un prijs reduci.

Recientemente Minister di Educacion di Aruba a firma un Memorandum of Understanding cu University of West Florida, cu ta situa na Pensacola, Florida. E acuerdo di colaboracion ta encera cu UWF pa aña escolar 2020-2021 ta ofrece na un total di cinco estudiante di Aruba e oportunidad pa por studia na UWF na e prijs special cu un residente di Florida ta paga. Loke nos ta yama “instate-tuition fee”. UWF ta dispuesto pa evalua pa proximo aña subi e cantidad di studiantenan cu lo por bin na remarca pa e prijs special aki, depende di e exito di e acuerdo. E prijs special aki ta un suma costo di educacion di USD 5500,00 pa aña. Alabes UWF ta exige pa tur estudiante den nan prome aña biba den e cambernan riba nan campus y nan mester tin un seguro. E gastonan pa esaki ta mas o menos USD 9500 pa aña. Esaki ta yega na un suma total di USD 15.000 pa aña cu ta menos cu e suma cu un estudiante por haya pa bay studia na Merca conforme e reglanan di Arubalen- ing.

UWF no tin ningun estudiante di Aruba ainda y nan lo kier haya un par di hoben di Aruba na nan Universidad. Pensacola ta keda na e punta Oeste di Florida. UWF ta conta cu mas o menos 13.000 estudiante y nan ta conoci pa tin klasnan chikito y personalisa. Recientemente Joselin a combersa cu Rachel Hendrix,

Directora di e Departamento Internacional na UWF, ken a indica cu te awor ta un hoben so a aplica y nan ta spera di haya mas estudiante di Aruba.

Ta importante pa sa, cu UWF no ta e unico scol na Merca cu Aruba tin un acuerdo di colaboracion cu nan pa prijsnan reduci. Aruba tin un acuerdo di colaboracion desde aña pasa cu Wayne State College na Nebraska na unda actualmente tin un hoben Arubiano estudiando, University of South Carolina y Coastal Carolina University na South Carolina cu tin varios Arubiano estudiando pa e ultimo añanan. Tambe Aruba tin algun acuerdo di colaboracion cu algun Universidad na Canada manera Brescia University, Seneca College, Niagara College, Bishop's University, Centennial College y Carleton University cu tambe tin varios Arubiano estudiando na nan Universidad.

Pa aplica pa e Universidadnan aki mester bay riba nan website y aplica normal. Pa e Universidadnan na Florida alabes mester bay riba nan website di Latin American and Caribbean Scholarship y mester aplica eyan tambe pa haya e tarifa reduci aki. Joselin ta comprometi pa sigui crea oportunidadnan di colaboracion no solamente pa “instate tuition fees” pero tambe pa por haya mas programanan di educacion Mericano pa EPI, EPB, Universidad di Aruba y otro scolnan cu ta acerc'e pa esaki. Asina e ta spera cu pronto EPI lo cera un acuerdo cu Roxbury Community College y Montgomery College.

Segun directora di ATA, Ronella Tjin Asjoe-Croes

Reapertura di turismo ta bay existi mas dedicacion y compromiso

ORANJESTAD – Unabes cu minister di Turismo, Dangui Oduber a anuncia e fechanan tentativo entre 15 di juli y 1 di juli pa habri nos frontera, Aruba Tourism Authority (ATA) pa medio di su directora, Ronella Tjin Asjoe-Croes a bisa cu nan ta den full swing trahando riba e reapertura aki.

Ta asina cu ATA conhuntamente cu su socionan pa preparando pa un reapertura. Nan a tuma e decision di fiha un fecha como meta, cu ta un hecho sumamente importante. Na e momento aki e fecha ta fiha pa mita di juni of final di e mesun luna.

Mester para keto na e hecho cu Aruba ta conoci como un isla sigur, esey ta e motibo pa cual hopi persona ta bishita nos isla, el a bisa. E halto ehecutivo di ATA a bisa cu nan sa cu seguridad aworaki ta sumamente importante, no solamente den e contexto cu nos semper nos a conoce. Esta seguridad contra robo y contra crimen. Pero aworaki seguridad contra e Covid-19.

Pa e motibo ey, diferente paso adicional mester wordo tuma. “Mester bisa cu e manera con un pais ta mancha e crisis ta suma importancia,” el a bisa.

Tjin Asjoe-Croes a trece dilanti cu den diferente studio haci tocante e turismo, a sali na cla diferente aspecto. Nan a puntra e Mericanonan cu ta e sector primario di nos turismo, si nan lo bishita paisnan di Asia of Europa y un gran porcentahe a bisa cu nan lo haci’e, ora cu tin un vacuna. Sin embargo ora nan a puntra tocante e area de Caribe, e parti di vacuna no tabata e mas importante. Un 14% nan contesta tabata ta cu nan ta dispuesto pa biaha, manera cu e medidanan ta wordo kita na Merca.

Segun directora di ATA, e resultado aki ta bisa nos cu otro continente tin mas barera pa bishita e paisnan ey for di nos mercado primario cu ta Merca. Pero mirando cu un 14% so di e mercado aki a bisa cu ta dispuesto pa bishita Aruba inmediatamente, e ta muestra cu nos cu e proceso aki ta bay ta un etapa gradual di recu-

peracion. Mas ainda si nos tene na cuenta cu Aruba ta un di e paisnan mas dependiente di turismo na nivel mundial, manera organismo di evaluacion Standard & Poor’s a yega di indica pa medio di un estudio. Pues sigur cu nos esfuersonan mester ta hopi mas cu otronan, segun directora di ATA

“Turismo ta representa un 10% di e GDP mundialmente locual ta reflega cu e ta un industria importante na

nivel global. Nos dedicacion y compromiso mester ta hopi mas fuerte, compara cu otro paisnan cu no ta asina dependiente di e sector aki,” Tjin Asjoe-Croes a declara.

Igualmente directora di ATA a indica cu nos ta papiando di un soft re-opening, pasobra simplemente turismo no ta bay ta mescos cu antes.

E soft re-opening aki ta bay permiti nos pasa den un faceta pa nos test nos mes, y test nos protocolnan tambe.

E cantidad di bishitante cu nos ta spera, unabes nos ta habri, ta bay ta menos cu 10% di locual nos ta ricibi usualmente den un luna.

Unabes cu ATA ta introduci e protocolnan pa e sector turismo, tur hende mester traha riba esey. Nan ta bay tin algun siman pa prepara tur esey, cu ekipo di trabao di cada organizacion teniendo como deadline e fecha tentativo cu a wordo poni pa habri nos frontera.

Aruba ta spera di otorga contract pa huur tankinan fin di luna

ORANJESTAD (argusmedia) - Aruba lo ricibi ofertanan te cu dia 15 di mei proximo, pa huur un capacidad di almacenaje di productonan petrolero y crudo, cu a habri despues di retiro di un subsidiario

Mericano di e compania estatal Venezolano, PdV.

Segun e compania basa na London, Argus Media, un oficial senior di gobierno local a bisa cu mas di 40 compania a expresa interes den e

almacenahe riba nos isla. E compania estatal Refineria di Aruba (RdA) ta spera di entrega e contract di almacenaje na fin di mei of cuminsamento di juni.

E oferta pa huur ta yega na

momento di presion severo riba almacenaje onshore y flotante, debi na un aumento historico di suministro y un collapse den demanda causa pa pandemia di COVID-19, como tambe esfuersonan relaciona cu contenimento, y

e resultado negativo riba economia.

Aruba tin 10 tanki di almacenaje disponibel pa huur prontamente, cu capacidad pa 665mil bl di producto limpi, 5.224mn bl di crudo y 518mil bl di naphta, segun un material promocional obteni pa Argus. Otro shete tanki actualmente ta wardando reparacion, y tin capacidad pa 4.224mn bl di crudo.

Reino Uni ta test uso di drone pa entrega suministro na hospital

STUBBINGTON, Inglaterra (AP) — Reino Uni ta test uso di un drone tamaño di un auto pa entrega suministro medico mas rapidamente na hospital y yuda alivia presión di sistema di salud di e país durante e crisis di novel coronavirus.

A completa e prome entrega den weekend, momento cu un drone cu hala grandi a bula den shelo for di un aeropuerto den costa sur di

Inglaterra. El a aterisa dies minuut despues na un campo aereo cerca di Isle of Wight 12km leu, unda a transporta su carga di muestra di patología via auto na e hospital.

E programa di test a ser acelera pa motibo di e pandemia, cu a mira casi tur biahe y transporte efectivamente shut down rond mundo, mientras autoridadnan ta purba distancia hende pa limita contagio.

Autoridadnan manehando e

programa di drone ta bisa cu entreganan aereo ta reduci costo y tempo di transporte di suministro medico vital, particularmente durante un crisis di salud manera pandemia di COVID-19. Ta spera cu lo usa nan unicamente den algun caso selecto unda hospitalnan ta particularmente difícil di yega.

“Tin hopi area den Reino Uni cu tin mal conexion logistico, y e aeronave aki ta un solucion pa esey”, a bisa James Scanlan, profesor di diseño aeroespacial na Universidad di Southampton, cu ta colaborando den e proyecto. “E tin un carga hopi importante, y nos ta realmente un nacion isla - nos tin hopi comunidad chikito unda algo asina por conecta hende di forma barata y eficiente.”

Den caso di Isle of Wight,

por ehempel, suministran medico incluyendo obhe-tonan vital manera sanger y medicina, actualmente ta entrega via ferry di cargo of pasahero, cu ta dura alrededor di un ora, of mediante un avion tradicional, cu ta caro. Biahe di ferry recientemente a reduci pa preveni transmision di coronavirus.

“Ta un stap dilanti den e hecho cu ta dunando entrega na un velocidad mas haltu”, segun Conrad Haigh di Solent Transport, dirigiendo e proyecto. “Tin algun servicio (di salud nacional) cu ta rekeri un entrega na tempo y algun di e aspectonan aki ta bay wordo facilita den un manera hopi miho.”

Mientras e drone a despegar, team na ambos banda di e Solent Strait a monitor su progreso. Mayoria di e vuelo,

incluyendo despegue, tabata automatico. E team a step in pa un aterisaje exitoso, maske e plan ta pa esey tambe bay automatico.

A usa drone aereo sin piloto den paisnan manera Rwanda pa entrega suministro medico na comunidatnan isola. Un proyecto na Suisa ta usa drone pa ferry muestranan di laboratorio a traves di e ciudad di Zurich.

Reino Uni ta tumando un maneho cuidadoso. E proyecto di cuatro aña den costa sur tin como meta pa desaroya e prome sistema di maneho di trafico aereo pa maneha aeronave tanto cu of sin tripulacion den espacio comparti.

Luna pasa, hefe di transporte Britanico a anuncia plan pa fast-track test pa motibo di pandemia di coronavirus.

Herment di AI ta analisa documento científico pa revelacion di coronavirus

(TheConversation) - Un comunidad científico rond mundo a mobilisa cu velocidad sin precedente pa combati e pandemia di COVID-19, y e resultado di investigacion ta asombrante. Tur dia, centenares di documento científico tocante COVID-19 ta publica, tanto den journal tradicional y pre-print sin revision di colega. Esey ya caba ta mas cu cualkier humano por analisa, y mas investigacion ta saliendo constantemente.

Y no ta djis investigacion nobo. Ta calcula cu tin como 500mil documento relevante na COVID-19 cu a wordo publica prome cu e brote, incluyendo documentonan relaciona na e brote di SARS na 2002 y MERS na 2012. Cualquiera di esey nan por tin e informacion clave cu lo conduci na tratamiento efectivo of vacuna pa COVID-19.

Metodonan tradicional di busca a traves di e literatura di investigacion simplemente no ta util mas. Esaki ta e motibo pakico científiconan na Lawrence Berkeley National Lab ta usando e tecnicnan mas recien di Inteligencia Artificial (AI) pa construi COVIDScholar, un motor di buskeda dedica na COVID-19.

COVIDScholar ta inclui herment cu ta haya pistanan sutil, manera droga similar of metodologia di investigacionpa recomenda investigacion relevante na científiconan. AI no por reemplasa científiconan, pero si por yuda nan haya revelacionnan nobo di mas documento cu nan lo por lesa

den henter nan bida.

Pakico ta importante?

Ora ta trata di haya tratamentonan efectivo pa COVID-19, tempo ta esencial. Científiconan ta pasa 23% di nan tempo buscando y lesando documento. Cada seconde cu nan herment di buskeda por scapa nan ta mas tempo pa haci descubrimiento den laboratorio y analisa data.

AI por haci mas cu djis scapa científiconan tempo. Trabou anterior di e grupo a demostra cu AI por captura conocimiento científico latente for di texto, haciendo conexionnan cu humanonan no a mira. A demostra cu AI por sugeri materialnan nobo, funcional y vanguardista añanan prome cu humano descubri esaki. E informacion tabat'ey semper, pero a tuma combinacion di informacion di centenares di miles di documento pa haya'e.

Awo ta aplicando e mesun tecnica na COVID-19, pa haya droganan existente cu por haya un proposito nobo, vinculan genetico cu por yuda desaroya un vacuna o regimen di tratamiento efectivo. Tambe ta cuminsando desaroya innovacion nobo, manera usa estructura molecular pa yuda haya cua droga ta similar na otro, incluyendo similar den formanin inespera.

Con ta haci e trabou?

E parti mas importante ta e data. A crea 'web scraper' cu ta colecta documentonan nobo asina cu nan ta publica di un variedad di fuente, haciendo nan disponibel riba un website dentro di 15 minuut for di publicacion online.

Ademas ta haci e data limpi, corrigiendo eror den formato y comparando e mesun documento di varios fuente pa haya e miho version. Nan algoritmo di aprendisaje di mashin ta traha riba e documento, 'tag' esaki cu categoria di tema y marcando documentonan importante na COVID-19.

Tambe e team ta continuamente busca expertonan den areanan nobo. Nan input y anotacion di data ta permiti nan train modelo nobo di AI.

Kico ta bin despues?

Te awo, e team a compila un coleccion di mas di 60mil documento riba COVID-19, y ta expandiendo a coleccion diariamente. Tambe a construi herment di buskeda cu ta agrupa e investigacion den categoria, ta sug-

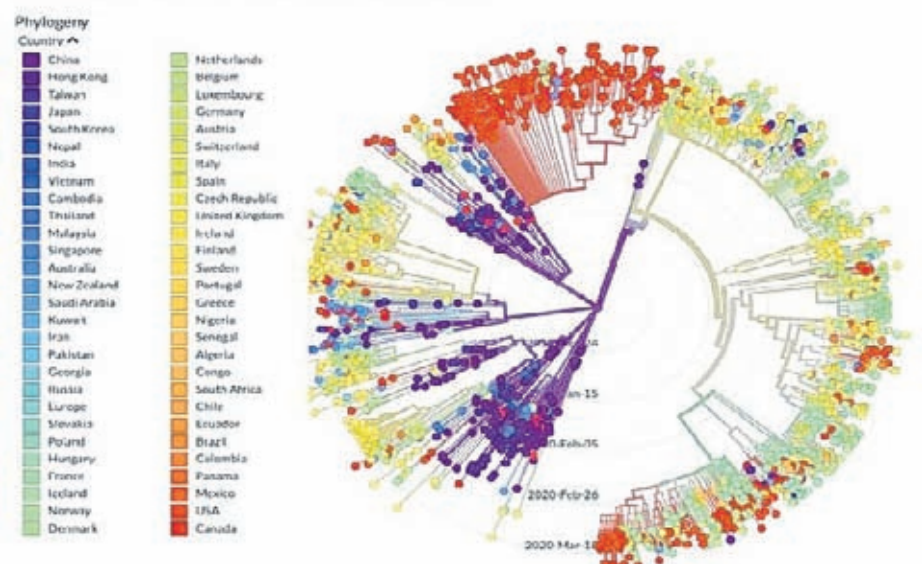

eri investigacion relaciona, y permiti usarionan haya documentonan cu ta conecta conceptionan diferente, manera documento cu ta conecta un droga specifico na malesanan cu a us'e pa trata den pasado.

Awo ta construyendo algoritmo AI cu ta permiti investigadonan hinca resultado di buskeda den modelo cu-antitativo pa studia topiconan manera interaccion di proteina. Tambe a cuminsa busca den literatura di pasado pa haya joyanan scondi.

Nan ta spera cu pronto, investigadonan usando COVIDScholar lo cuminsa identifica relacionnan cu nan nunca lo a imagina, treciendo nos mas cerca di tratamiento y remedi pa COVID-19.

Fauci warns of 'suffering and death' if U.S. reopens too soon

Continued from Front

More COVID-19 infections are inevitable as people again start gathering, but how prepared communities are to stamp out those sparks will determine how bad the rebound is, Fauci told the senators.

"There is no doubt, even under the best of circumstances, when you pull back on mitigation you will see some cases appear," Fauci said.

And if there is a rush to reopen without following guidelines, "my concern is we will start to see little spikes that might turn into outbreaks," he said. "The consequences could be really serious."

In fact, he said opening too soon "could turn the clock back," and that not only would cause "some suffering and death that could be avoided, but could even set you back on the road to try to get economic recovery."

Fauci was among the health experts testifying Tuesday to the Senate panel, as Trump has been praising states that are reopening after the prolonged lockdown aimed at controlling the virus's spread.

Committee chairman Alexander said as the hearing opened that "what our country has done so far in testing is impressive, but not nearly enough."

Worldwide, the virus has infected nearly 4.2 million people and killed over 287,000 — more than 80,000 in U.S. alone. Asked if the U.S. mortality count was correct, Fauci said, "the number is likely higher. I don't know exactly what percent higher but almost certainly it's higher."

Fauci, a member of the coronavirus task force charged with shaping the response to COVID-19, testified via video conference after self-quarantining as a White House staffer tested positive for the virus.

With the U.S. economy in free-fall and more than 30 million people unemployed, Trump has been anxious to reopen states for business.

Sen. Tim Kaine, D-Va., left, and Sen. Richard Burr, R-N.C., greet each other with an elbow bump before the Senate Committee for Health, Education, Labor, and Pensions hearing, Tuesday, May 12, 2020 on Capitol Hill in Washington. Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, is to testify before the committee.

Associated Press

A recent Associated Press review determined that 17 states did not meet a key White House benchmark for loosening restrictions — a 14-day downward trajectory in new cases or positive test rates. Yet many of those have begun to reopen or are about to do so, including Alabama, Kentucky, Maine, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee and Utah.

Of the 33 states that have had a 14-day downward trajectory of either cases or positive test rates, 25 are partially opened or moving to reopen within days, the AP analysis found. Other states that have not seen a 14-day decline, remain closed despite meeting some benchmarks.

Besides Fauci, of the National Institutes of Health, the other experts include FDA Commissioner Dr. Stephen Hahn and Dr. Robert Redfield, head of the Centers for Disease Control and Prevention — both in self-quarantine—and Adm. Brett Giroir, the coronavirus "testing czar" at the Department of Health and Human Services.

The event Tuesday got underway in the committee's storied hearing room, but that's about all that remained of the pre-pandemic way of conducting oversight.

The senators running the event, Alexander and Democrat Patty Murray of Washington, were heads on video screens, with an array of personal items in the background as they isolated back home. A few senators, such as Alaska Republican Lisa

Murkowski and Connecticut Democrat Chris Murphy, personally attended the session in the hearing room. They wore masks, as did an array of aides buzzing behind them. The health committee hearing offers a very different setting from the White House coronavirus task

force briefings the administration witnesses have all participated in. Most significantly, Trump did not control the agenda.

Eyeing the November elections, the president has been urging on protesters who oppose their state governors' stay-at-home orders, while expressing his own confidence that the coronavirus will fade away as summer advances and Americans return to work and other pursuits.

The U.S. has seen at least 1.3 million infections and nearly 81,000 confirmed deaths from the virus, the highest toll in the world by far, according to a tally by Johns Hopkins University.

Separately, one expert from the World Health Organization has already warned that some countries are "driving blind" into reopening their economies without having strong systems to track new outbreaks.

And three countries that do have robust tracing systems — South Korea, Germany and China — have already seen new outbreaks after lockdown rules were relaxed. □

Border closure leaves Alaska cut off from Canadian backyard

ANCHORAGE, Alaska (AP) — Some residents in Southeast Alaska who have seen the border with Canada closed because of the coronavirus feel cut off from an area they visit and drive through frequently.

Haines, Skagway and Hyder all have been affected by the COVID-19 pandemic and resulting border closure that has altered life dramatically for some. The Anchorage Daily News reported Monday. The communities are connected to the rest of the state by the Alaska Highway through Canada and each place depends on its neighboring Canadian town for necessities such as food, health care and medicine

and various activities conducted across the border. The U.S.-Canada border closed March 20 to all nonessential traffic and the closure was recently extended to May 21. Yukon has stringent travel restrictions and quarantine requirements for anyone entering the territory until it is no longer in a state of emergency.

The border closure, which could be extended again, "can be prolonged as necessary for public health reasons," said Mark Stuart, Canada Border Services Agency spokesman.

In Hyder, residents shop for groceries and buy fuel across the border in Stewart, British Columbia. "Stewart and Hyder are

basically one community with two countries," said Wes Loe, Hyder's volunteer mayor and the owner of its general store.

Haines Mayor Jan Hill said the border restriction is changing what residents do on a regular basis.

"Going across the border into Canada is just a part of our daily life," Hill said. People in Haines "think of the Yukon as our backyard," resident Leslie Ross said.

On a recent car trip with her daughter back to Haines, Ross showed an officer her passport and registered to enter the Yukon, agreeing to drive through within 24 hours. "It was like a movie," Ross said. "It didn't feel like we were in North America." □

Report: Anti-Semitic incidents in U.S. hit record high in 2019

By **MICHAEL KUNZELMAN**

Associated Press

SILVER SPRING, Md. (AP) —

American Jews were targets of more anti-Semitic incidents in 2019 than any other year over the past four decades, a surge marked by deadly attacks on a California synagogue, a Jewish grocery store in New Jersey and a rabbi's New York home, the Anti-Defamation League reported Tuesday.

The Jewish civil rights group counted 2,107 anti-Semitic incidents in 2019, finding 61 physical assault cases, 1,127 instances of harassment and 919 acts of vandalism. That's the highest annual tally since the New York City-based group began tracking anti-Semitic incidents in 1979. It also marked a 12% increase over the 1,879 incidents it counted in 2018.

Jonathan Greenblatt, the group's CEO, attributes last year's record high to a "normalization of anti-Semitic tropes," the "charged politics of the day" and social media. This year, he said, the COVID-19 pandemic is fueling anti-Semitic conspiracy theories.

"Anti-Semitism is a virus. It is like a disease, and it persists," Greenblatt said. "It's sometimes known as

In this Dec. 11, 2019, file photo, Orthodox Jewish men carry Moshe Deutsch's casket outside a Brooklyn synagogue following his funeral in New York.

the oldest hatred. It never seems to go away. There truly is no single antidote or cure."

"Objects were thrown at victims, antisemitic slurs were shouted, and at least three victims were hit or punched in their heads or faces," says the report first given exclusively to The Associated Press.

The ADL defines an anti-Semitic assault as "an attempt to inflict physical harm on one or more people who are Jewish or perceived to

be Jewish, accompanied by evidence of antisemitic animus."

Three of those 2019 assaults were deadly.

A 20-year-old former nursing student, John T. Earnest, awaits trial on charges he killed a woman and wounded three other people during an attack on Chabad of Poway synagogue near San Diego in April 2019. The gunman told a 911 dispatcher that he shot up the synagogue on the last day of Passover because Jews

were trying to "destroy all white people," according to prosecutors.

Attacks in Jersey City, New Jersey, killed a police detective in a cemetery and three people at a kosher market in December. Authorities said the attackers, David Anderson and Francine Graham, were motivated by a hatred of Jewish people and law enforcement.

A 37-year-old man, Grafton Thomas, was charged with stabbing five people

with a machete at a Hanukkah celebration at a rabbi's home in Monsey, an Orthodox Jewish community north of New York City. One of the five victims died three months after the Dec. 28 attack. Federal prosecutors said Thomas had handwritten journals containing anti-Semitic comments and a swastika.

The ADL's report attributed 270 anti-Semitic incidents to extremist groups or individuals. A separate ADL report, released in February, found that 2019 was the sixth deadliest year for violence by all domestic extremists since 1970.

The ADL counted 919 vandalism incidents in 2019, a 19% increase from 774 incidents in 2018.

Two men described by authorities as members of a white supremacist group called The Base were charged with conspiring last year to vandalize synagogues, including Beth Israel Sinai Congregation in Racine, Wisconsin. Even before his synagogue was defaced with swastikas, Rabbi Martyn Adelberg sensed that anti-Semitic incidents in the U.S. have been increasing as extremist rhetoric migrates from the internet's fringes to mainstream platforms. □

Detroit-area residents lift spirits with costumed parades

By **MIKE HOUSEHOLDER**

Associated Press

FERNDALE, Mich. (AP) —

Sarah Ignash spends her days looking after dogs in normal times. With her business temporarily shuttered because of the coronavirus, though, she's taken to walks on the wild side through her Detroit suburb with dancing bears, bipedal zebras and the like.

Ignash, whose business in nearby Roseville specializes in boarding, grooming and day care for dogs, is one of the roughly two dozen members of the Ferndale T-Rex Walking Club who have been donning inflatable costumes for feel-good jaunts during these stressful times.

"It's so much fun. Nobody

Associated Press

can really see, (because) I have my mask on. And when I walk, I'm just smiling from ear to ear," the 42-year-old Ignash said before donning her pink unicorn get-up and leading

Monday's impromptu parade. It was the club's seventh walk since it formed in March. The members' full-body inflatable costumes run the gamut from dancing hippos, sharks and

bears to a cheerful Pikachu, Stay Puft Marshmallow Man and Mr. Potato Head. And, of course, there's a T-Rex. They trek single-file along sidewalks to thematically appropriate tunes such as the Bangles' "Walk Like an Egyptian," and "Walk the Dinosaur" by Was (Not Was). "The purpose of the group is to just do something a little bit out of the ordinary," said Ignash, the group's leader and founding member.

Most members of the T-Rex Walking Club also belong to the Elks lodge in Ferndale, and they adhere to a strict set of guidelines.

"We do not tell anybody where we're going to walk, where we're meeting or the time that we're going to walk," said Ignash, adding

that their costumes are fully enclosed and that every member also wears a mask while inside. Plus, socially distancing is no problem for them. "A lot of us are very large and we have very long tails," Ignash said. "So, maintaining social distancing is very easy in these."

While the club members get a kick out of their parades, the idea is to bring a little bit of cheer to their fellow residents who remain under quarantine as part of Gov. Gretchen Whitmer's stay-at-home order.

"That's just really why we're doing it. It's just something that's very unexpected. And people need something a little bit different to break up the day, I think," Ignash said. □

U.K. U-turns on masks as lockdown-easing steps spark confusion

By JILL LAWLESS
Associated Press

LONDON (AP) — The British government performed an about-face on masks Monday, telling people to cover their mouth and nose in shops, buses and subway trains. The change came as part of what Prime Minister Boris Johnson called the "first careful measures" to lift a nationwide lockdown imposed seven weeks ago to slow the spread of the new coronavirus.

A 50-page government document outlining cautious steps to ease restrictions said "people should aim to wear a face-covering in enclosed spaces where social distancing is not always possible and they come into contact with others that they do not normally meet, for example on public transport or in some shops."

That is a recommendation rather than a rule, and people won't be penalized if they don't wear a mask. The government outlined a three-stage approach to ending lockdown, beginning Wednesday with a relaxing of limits on outdoor activity. People in England may take unlimited amounts of exercise, rather than just one trip out a day, and may sit and sunbathe outdoors. Driving to a park or beach will be permitted,

and golf courses and tennis courts can reopen.

If there is no new spike in infections, that will be followed in June by a return to class for some young school pupils, the reopening of nonessential shops and the return of televised sports, played behind closed doors.

A third stage, penciled in for July at the soonest, would see the gradual reopening of restaurants, cafes, pubs, hairdressers and other businesses. Johnson told lawmakers that "if the alert level begins to rise we will have no hesitation in putting on the brakes."

Johnson, who was hospitalized last month with a serious bout of COVID-19, also said that within weeks the U.K. would impose a 14-day

quarantine on people arriving by air. Travelers from Ireland and France will be exempt.

While many people welcomed the prospect of an end to lockdown, there was confusion about the measures, which were announced by Johnson in a televised speech almost 24 hours before the details were published.

"What the country needs at this time is clarity and reassurance, and at the moment both are in pretty short supply," said Keir Starmer, leader of the main opposition Labour Party.

In a televised statement Sunday, Johnson extended most of the draconian restrictions on daily life imposed March 23, including the closure of schools, res-

taurants and most shops. Britain's official coronavirus death toll stood Monday at 32,065, the highest in Europe and the second-highest in the world after the United States. While the number of new deaths and infections is falling, Johnson said it would be "madness" to loosen restrictions so much that there is a new surge in cases.

But he made a dramatic shift in tone on the economy. Since March 23, workers have been told to stay at home. Now Johnson said "anyone who can't work from home, for instance those in construction or manufacturing, should be actively encouraged to go to work." He said workplaces should observe social distancing and people should avoid public transport if possible, traveling "by car or even better by walking or bicycle."

Employees, business owners and trade unions expressed concern about the gear-change, saying the advice was confusing and potentially dangerous — especially in a big city like London, where most people do not own cars and where subways are operating at a fraction of their usual capacity.

Some expressed fears that people in low-paid jobs, who are less likely to be

able to work from home, will be put at risk. That concern was underscored by official statistics showing that men working as security guards, construction workers, transit workers and shop assistants had experienced higher-than-average mortality in the outbreak. Men overall are about twice as likely as women to die with the coronavirus.

London's Waterloo station, usually the country's busiest train hub, remained largely quiet Monday morning but commuters venturing back to work said they worried that services would soon be thronged again.

Peter Osu, 45, who was returning to work at a construction site for the first time since the lockdown started, said he felt nervous.

"People were sitting close together on the (subway) and others were having to stand," he said. "There was no 2-meter spacing. This is the first day. Can you imagine what it's going to look like by the end of the week?"

The reopening plan has put Johnson's U.K. government at odds with semi-autonomous authorities in Scotland, Wales and Northern Ireland, who urged caution and said they would not automatically adopt the measures Johnson has announced for England. □

Poll: Taiwanese distance themselves from Chinese identity

In this photo taken Thursday, Jan. 9, 2020, supporters of the Nationalist or KMT party pose with the Taiwanese flag during a rally for the presidential election in Taipei, Taiwan.
Associated Press

TAIPEI, Taiwan (AP) — About two-thirds of Taiwanese don't identify as Chinese, according to a survey released Tuesday that high-

lights the challenge China would face in bringing the self-governing island under its control.

The U.S.-based Pew Re-

search Center found that 66% view themselves as Taiwanese, 28% as both Taiwanese and Chinese and 4% as just Chinese. The telephone poll of 1,562 people, conducted last fall, has a margin of error of 3.2 percentage points.

The results are consistent with other polls showing that people in Taiwan increasingly identify only as Taiwanese, Pew said.

Today's Taiwan was born of a civil war in China that brought Mao Zedong's Communists to power on the mainland in 1949. The rival Nationalists, led by Chiang Kai-shek, fled to Taiwan, an island about 160 kilometers (100 miles) off China's east coast.

Seventy years later, younger generations in particular have developed a distinct identity, with 83% of respondents under 30 saying they don't consider themselves Chinese.

Alexander Huang, a professor at Tamkang University in Taiwan, said it is a question of politics, not ethnic background. Younger Taiwanese grew up in a democracy, while China is a one-party state.

Another factor, Huang said, is the diplomatic pressure that China puts on Taiwan and the military exercises it conducts in Taiwan's vicinity.

"We are ethnic Chinese for sure. But politically, I think that's the big difference,"

he said. "It is quite understandable that people don't want to be identified as Chinese."

Taiwan has never declared independence, though in many ways it acts like a nation, with its own foreign ministry and military. China still considers the island of 23.6 million people part of its territory and bristles at any talk of independence. It favors peaceful unification but pointedly does not rule out the use of force, if necessary.

The Pew survey found that about 60% of Taiwanese have an unfavorable view of China. While 52% support closer economic ties with China, only 36% favor closer political ties. □

Suspect arrested in 1988 death of American man in Sydney

By DENNIS PASSA

BRISBANE, Australia (AP) —

More than 30 years after American mathematician Scott Johnson died after falling off a cliff in Sydney, a man has been charged with his death in an apparent gay hate crime that police believe was one of many over several decades in Australia's largest city.

New South Wales state police said Tuesday that a 49-year-old man who they did not name has been charged with murdering the 27-year-old Sydney-based Johnson in 1988.

They said the man was arrested at a property in Sydney's northern suburbs. He was taken to a local police station for questioning, and was later charged with murder. He was refused bail and is scheduled to appear in court on Wednesday.

Three inquests were held into Johnson's death after he was found at the base of a cliff near Manly's North Head on Dec. 10, 1988. In the first inquest, his death was ruled a suicide. The second inquest, in June 2012, returned an open finding.

However, the third inquest, in 2017, found that Johnson fell from the clifftop as the result of violence by an unidentified attacker who perceived him to be gay.

A 1 million Australian dollar (\$647,000) reward for information leading to an arrest in the case was offered in 2018, and Johnson's family in March pledged to match that amount.

New South Wales state

Police Commissioner Mick Fuller said in a statement Tuesday that he had been in contact with Johnson's brother Steve in Boston to inform him of the arrest.

"Making that phone call this morning is a career highlight — Steve has fought so hard for so many years, and it has been an honor be part of his fight for justice," Fuller said.

Steve Johnson said in a

statement that his brother symbolizes those who lost their lives to homophobic-inspired violence.

"It's emotional for me, emotional for my family, my two sisters and brother who loved Scott dearly, my wife and three kids who never got to know their uncle," Johnson said.

"He courageously lived his life as he wanted to. I hope the friends and families of

the other dozens of gay men who lost their lives find solace in what's happened today and hope it opens the door to resolve some of the other mysterious deaths of men who have not yet received justice," he said.

Johnson said his brother graduated at the top of his class at CalTech and later studied at Cambridge and Harvard universities before moving to Australia.

A 2018 police review of 88 suspicious deaths from 1976 to 2000 revealed that 27 men were likely murdered for their homosexuality by gangs, with cases peaking in the late 1980s and early '90s. ACON, New South Wales' leading sexuality and gender-diverse health organization, said it has been a long and difficult process for Johnson's family and friends.

"While this is a significant development in this particular case, it highlights the need for ongoing investigation, truth-telling and the delivery of justice for so many other gay men and trans people, who were murdered or bashed in similar cases," ACON's chief executive, Nicolas Parkhill, said in a statement. □

Sao Paulo homeless face choice between cold and virus risk

SAO PAULO (AP) — Brazil's biggest homeless population has begun succumbing to COVID-19, and activists warn the worst is yet to come as colder weather bears down and

shelters risk becoming hotbeds for infection. At least 22 homeless people in Sao Paulo have died from COVID-19 so far, according to City Hall, and there are hundreds of suspected cases throughout the state, both on the streets and in shelters. Júlio

Lancellotti, a 71-year-old priest, said nothing he's seen these people face in three decades compares to the hardship he expects from the new pandemic — not economic turmoil, waves of violence nor dengue fever.

"I have the feeling this will be our biggest challenge, and the most difficult part isn't even here yet," Lancellotti told The Associated Press. Sao Paulo's homeless population exploded in recent years, with official figures soaring to nearly 25,000 last year, up 60% from 2015. Brazil's long-lasting economic crisis and cuts to social programs pitched thousands into the streets of the country's richest city. Then came the coronavirus.

On Sunday, Lancellotti

welcomed dozens of them into his parish in eastern Sao Paulo. "These are the most vulnerable people of all. No hygiene, social isolation or access to handouts," he said. "They go to shelters that have infected beds." City Hall's announcement of nearly two dozen deaths among those living on the streets drew outcry, but Lancellotti and other social workers believe those figures are underestimated — as are Brazil's figures in general. Latin America's hardest-hit nation officially counts more than 11,000 deaths by the virus.

For most people, the new coronavirus causes mild or moderate symptoms, which can include fever and cough. The risk of death is greater for older

adults and people with other health problems.

Eight of the homeless victims had preexisting conditions and none died in shelters, local authorities said. Sao Paulo has two shelters for suspected COVID-19 cases, with 40 residents in total. There are another 10 centers for the homeless in general with more than 4,400 beds, about one quarter of which are newly installed for use during the pandemic. Marco Antonio, 45, said he won't be seeking refuge any time soon. He sells recyclables that he wheels around all day in a shopping cart and, since the outbreak began, he has been wearing gloves and a mask. And he'll share sleeping space with no more than four neighbors. □

Why prospect of deflation could pose a threat to U.S. economy

By **MARTIN CRUTSINGER**

AP Economics Writer

WASHINGTON (AP) — The economic paralysis caused by the coronavirus led in April to the steepest month-to-month fall in U.S. consumer prices since the 2008 financial crisis — a 0.8% drop that was driven by a plunge in gasoline prices. And excluding the normally volatile categories of food and energy, so-called core prices tumbled 0.4%, the government said in its monthly report on consumer inflation. That was the sharpest such drop on records dating to 1957.

The business shutdowns, reduced travel and shrunken consumer spending that the virus has caused have likely sent the U.S. economy into a severe recession. The resulting drop in economic activity is exerting a powerful downward force on prices throughout the economy. Tuesday's report raises the prospect of deflation, a prolonged drop in prices and wages that typically makes people and companies reluctant to spend and can prolong a recession. Not since the Great Depression of the 1930s has deflation posed a serious economic threat in the United States.

"If deflation becomes embedded in the economy, it can be difficult to uproot," said Gus Faucher, chief economist at PNC Financial Services.

Over the past 12 months, overall prices have risen a scant 0.3%, the smallest year-over-year increase since 2015. Core inflation has increased 1.4%, the lowest pace since 2011. With consumer prices falling, concerns have arisen that the United States might succumb to a debilitating bout of deflation for the first time in decades.

The fact that falling prices tend to cause worry among economists and policymakers may strike many people as puzzling. Here are some questions and answers:

WHAT EXACTLY IS DEFLATION?

Deflation is a broad and prolonged decline in prices

This Aug. 11, 2019 file photo shows credit cards in New Orleans.

and wages and often in the value of homes or other assets. During deflationary periods, broad barometers like the Consumer Price Index that the government issued Tuesday will show consistent price changes below zero. And for two months now, that is what the CPI has shown: The index fell 0.4% in March and 0.8% in April. The trend is likely to persist as the virus depresses economic growth and consumer spending and thereby exerts downward pressure on prices.

AREN'T FALLING PRICES GOOD? PEOPLE CAN BUY MORE THINGS WITH LESS MONEY, RIGHT?

It's true that households can make their paychecks go further when prices are flat or falling. And with tens of millions of people suddenly out of work, this means that at least their unemployment benefits will stretch further. The 20% drop in gasoline prices in April, for example, will provide a welcome benefit to motorists. All that said, economists fear that sustained price declines would hinder, not help, economic growth. HOW?

The main reason is that falling prices typically make consumers and businesses delay spending. Why buy

now, after all, if you can purchase the products you want — from furniture and appliances to cars, boats and computer equipment — at even lower prices three or six months from now? Collectively, such delays slow consumer spending, which drives about 70% of U.S. economic activity. Consider the economy's 4.8% annual contraction during the January-March quarter. That quarterly decline, the worst since the 2008 financial crisis, was led by a broad pullback in consumer spending.

Deflation also tends to hold down wages and to make the inflation-adjusted cost of a loan more expensive for borrowers. And in keeping borrowing and spending persistently weak, deflation can prolong a recession.

HAS THE U.S. EVER ENDURED A PERIOD OF DEFLATION?

Yes, but not for nearly nine decades, since the Great Depression. During the Depression, falling prices meant that farmers couldn't receive sufficient payments for their crops. This caused millions of families to lose their farms to banks after they failed to make their mortgage payments. More recently, some other economies, notably Japan's, have been

bedeviled by deflation. Beginning in the 1990s, Japan struggled, often in vain, to keep inflation from falling. As a consequence, Japan suffered through more than two decades of anemic economic growth.

WHAT CAN U.S. POLICY-MAKERS DO TO AVOID THAT FATE?

The Federal Reserve has responded aggressively and on multiple fronts to try to counter the economic damage inflicted by the coronavirus shutdowns. The Fed has cut its benchmark interest rate to a record low near zero, where it had stood for seven years after the financial crisis. The central bank is also spending trillions of dollars — more than it ever has, by far — to buy Treasury and mortgage bonds to try to keep short and longer-term rates as low as possible to support borrowing and sustain the economy. The Fed has also unveiled numerous programs that are intended to facilitate a smooth and continual flow of credit, which is essential to the financial system.

WILL ALL THOSE EFFORTS BE ENOUGH?

No one knows for sure. The Fed's broad efforts, which in a normal economy would likely accelerate inflation, may or may not be enough

to keep prices from falling. Yet if consumers and businesses avoid spending at anything near normal levels for many more months in light of continued shutdowns, persistent unemployment and fears about the virus, a bout of deflation would become more likely. Most analysts have said they believe that sustained economic growth won't resume until sometime next year, perhaps after a vaccine or an effective drug therapy is available and can be widely distributed. □

Cannes is empty, the day the film festival should have begun

By **THOMAS ADAMSON and DANIEL COLE**

Associated Press

CANNES, France (AP) — The stars of Cannes Film Festival have stayed home, its prestigious grounds repurposed as a homeless shelter, and the beaches closed.

The French Riviera resort of Cannes would normally be abuzz with cinema glitterati on a Tuesday such as this — scheduled as the opening night of the annual festival — but during the time of coronavirus, it is a ghost town.

The world's biggest film festival was canceled this year for the first time since World War II.

A couple of mask-wearing residents sit on the edge of the empty promenade to catch the morning sun, dangling their feet above the sand and next to an "Access and Swimming Prohibited" sign. An elderly group play petanque quietly next to the deserted roads. And on Tuesday, on the iconic billboard reserved for each year's festival poster, a large message of "THANK YOU" for coronavirus emergency workers was installed symbolically,

instead.

"I'm overcome with a great sense of melancholy and nostalgia," Cannes Delegate General Thierry Fremaux told Screen Daily about this unprecedented week. "Cannes has only ever been cancelled once, due to the Second World War, and stopped once, in May '68.

"I could never have imag-

ined something like this. Who could foresee that so many countries around the world would be caught out by the epidemic?"

Yet, while the cancellation represents a blow to the movie stars and directors it serves, it has also devastated the legions of businesses and unsung subcontractors that rely on the festival.

"For us, it's really a very big

(financial) loss. The festival represents a large part of our annual revenues so it's very serious problem," said Joseph Rappa, owner of a snack-vending kiosk.

For others, it's even worse. Pierre Dambrine works building film stands inside the Palais des Festivals, the retro building complex in which the screenings and awards ceremonies take

place. "There is no more work at all. We don't know at all when things will resume," Dambrine said.

Since March, the local government repurposed the festival's building complex as a shelter for homeless. Every day, dozens of the formerly destitute can be seen walking behind a fenced off area, where journalists were once used to interviewing the likes of Marion Cotillard.

Shops started reopening on Tuesday, with some high-end boutiques such as Valentino and Saint Laurent set to open their door again, but the mood is still gray. The famous Martinez hotel, where many of Cannes' stars stay during the 12-day event, will remain closed for at least one more month.

Fremaux has expressed pessimism about the immediate future of the film industry, but said it would rebound.

He said the cancellation of this year's events won't stop the festival recognizing 2020's film talent -- and Cannes organizers will announce an Official Selection for this year at the beginning of June. □

NEW YORK (AP) — Tina Fey shed tears after announcing that more than \$115 million was raised toward supporting New Yorkers impacted by COVID-19 during a virtual telethon.

"Thank you, thank you," said a tearful Fey, the host of the Rise Up New York! event Monday evening. The Emmy-winning actress along with other A-list ce-

lebrities from Barbra Streisand, Jennifer Lopez and Michael Strahan asked for donations to help relief and recovery efforts.

"Our city is under attack, but we've been here before," Robert De Niro said. "In the last 20 years, both 9/11 and Hurricane Sandy. You can take your best shot but you cannot break our spirit."

The one-hour benefit was presented by the New York-based poverty fighting organization, Robin Hood, and iHeartMedia. Robin Hood said all the donations will provide support for food, shelter, cash assistance, mental health, legal services and education. "If you had breakfast today, you are better off than 2 million of your neighbors who woke up hungry," Fey said.

Mariah Carey performed her 1992 song "Make It Happen." She sang while her backup singers and pianist performed on separate screens to the upbeat tune. "We can make it through this together," Carey said. Lin-Manuel Miranda, Cynthia Erivo, Idina Menzel, Ben Platt and

others performed a rendition of Frank Sinatra's classic song "New York, New York." Lopez introduced PS22 Chorus, a collection of New York elementary school students who sang Andra Day's "Rise Up."

"New York, I know your strength," said Lopez, a New York native.

Spike Lee shared encouraging words that sports would return someday soon. Streisand and Audra McDonald showed the same optimism about New York City's Theater District coming back "stronger than ever" after being closed due to the pandemic lockdown.

New York Giants greats including Strahan, Eli Manning, Phil Simms and Justin Tuck announced an

opportunity through a sweepstakes for one fan to play a game of touch football with the players in their own backyard and get a Super Bowl ring. The winner of the sweepstakes and three friends will have a chance to play against the players. Other musical performances included Sting's "Message in a Bottle" and Bon Jovi's "It's My Life." For most people, the coronavirus causes mild or moderate symptoms, such as fever and cough that clear up in two to three weeks. For some, especially older adults and people with existing health problems, it can cause more severe illness, including pneumonia, and death. The vast majority of people recover. □

From COVID-19 to increased use of digital payments: Consumer confidence slips further at end of the first quarter of 2020

ORANJESTAD — Amidst the unfolding COVID-19 pandemic and the tourism fallout, the consumer confidence index contracts to 91.7, down 2.2 index points, at the end of the first quarter of 2020. Digital payments surge as consumers shift to online and mobile payments.

The Central Bank of Aruba (CBA) recently concluded its Consumer Confidence survey for the first quarter of 2020. In its new digital design, the online survey also assessed the impact of the COVID-19 pandemic on the sentiments of consumers.

The first quarter results indicate that the main concerns of consumers were the economic conditions (91%) and the financial position of the government (81%), followed by job insecurity (80%), and the household's financial situation (66%). Almost two-thirds of respondents (59%) indicated that they are worried about their health.

At the end of the first quarter of 2020, the present situation index measured 90.7, while the future expectation index came out at 92.3, suggesting significant negative consumer sentiments. Close to 75% of indicate that taking out a personal loan or mortgage is not suitable right now, while only 10% would consider purchasing a household appliance. Consequently, the consumer purchasing habit index stood at 91.6. Overall, the consumer confidence index contracted to 91.7, its lowest point since 2011.

Three additional questions assessed the impact of the COVID-19 situation on, respectively, personal health, household's financial situation, and the challenge in meeting basic needs. The findings indicate that over 60% of the respon-

dents felt that the COVID-19 crisis has a significant impact on their household's financial position, while more than half of respondents reported that they expect to have trouble in meeting basic needs in 6 months. Almost two-thirds of the respondents also indicated that the COVID-19 pandemic is a threat to their personal health.

In terms of payments and consumer banking channels, at least 75% of respondents reported that they are paying online, with an estimated 52% using their mobile banking app during the first quarter of 2020. Noticeable is that almost 40% indicate that they never visit a bank branch. The results show a clear shift in digital payment preferences by consumers. The complete report of the Consumer Confidence survey is available on the website of the CBA (<https://www.cbaruba.org/>).

From Aruba Tourism Authority: A.T.A. presents its ninth annual report (2019) to the minister of tourism

ORANJESTAD — This week, the Annual Report for 2019 was officially presented to Minister of Tourism Danguillaume Oduber. Typically, the presentation is done in the presence of the president of the Aruba Tourism Authority (A.T.A.) Board of Directors, as well as additional board members, A.T.A. CEO Ronella Tjin Asjoe-Croes, members of management, and representatives of the accounting firm overseeing the audit. However, due to the special circumstances created by the COVID-19 pandemic, the report was officially presented by Tjin Asjoe-Croes to the minister.

As the leading tourism authority in Aruba, A.T.A. is very strict in its management, allowing various independent companies to perform quarterly and annual audits. As of 2011, when the Tourism Office became independent, we can proudly say that the A.T.A. has diligently complied with submitting its Annual Report, which includes a summary of results and the work

done, as well as a financial report and its respective declaration of approval.

According to law, there are two crucial time periods for the Tourism Office: the first is when the budget is submitted for the following year, and the second is the moment when the Annual Report is presented with results from the previous year. The Annual Report consists of a general and financial report, as well as a section that focuses on the work of the Board of Directors. The general section of the report includes a compilation of the achievements made in ATA's various departments, which include Marketing, Strategy Planning & Research, Destination Services, Human Resources, Finance, IT, and Facility Management.

Before the minister approves the report, it will be sent to the Aruban Parliament for review for ten business days. After the report has been made available to the

Aruban Parliament, the Minister of Tourism can give his formal approval of the Annual Report (in this case, the report for 2019).

This is the ninth Annual Report that the A.T.A. has completed carrying a declaration of approval from an independent accounting company. For 2019, the firm of Ernst & Young was utilized. For the A.T.A. it is an extensive exercise of utmost importance and an integral part of its management, existing hand-in-hand with the law, as well as the code of Good Corporate Governance created by the A.T.A. Additionally, the A.T.A. receives an independent financial audit every quarter. This is done by the independent accounting firm of Grant Thornton.

A.T.A. attaches great importance to its financial management, as well as management that complies with A.T.A.-applicable laws and what constitutes good corporate governance. As such, these steps are a reflection of proper checks-and-balances management including audits by independent companies according to international regulations.

Results for 2019

Aruba experienced great success and growth over the course of 2019. The so-called "Tourism Credits" were projected to close with a growth of 4% to 6%. At the end of the third quarter of 2019, Aruba had received a total of 1,120,655 stay-over tourists. The main market for Aruba's tourism, North America, was projected to close with a growth of 11%, the highest growth since 2004. This, according to A.T.A., is the direct result of addi-

tional marketing efforts and strategic adjustments made during the year in, among others, the American market.

For 2019, the A.T.A. is projecting closing with an increase in total tourism stay-overs of three percent. Aruba's cruise tourism industry closed with a growth of 2.1% in 2019. The Aruba Hotel and Tourism Association (AHATA) noted a 7.5% increase in RevPAR (US\$ 233.89). Compared to other destinations in the Caribbean, Aruba maintained its position as the third most successful destination for overall performance. When it comes to occupancy, Aruba scored highest in the Caribbean with 75.1%.

Acknowledgements

A.T.A. would like to congratulate its entire team on another great accomplishment, having been able to submit the report with a declaration of approval. A.T.A. would also like to thank the Board of Directors for prioritizing this important report for the wellbeing of our tourism sector. Recognition also goes to Ernst & Young and the Minister of Tourism for their necessary diligence with the revisions and approval of this document.

We are currently facing a very difficult situation. Our Annual Report for 2020 will be very different compared to reports from past years. The A.T.A. will do everything it can to promote our tourism, which is the pillar of our economy. Economic diversification and innovation are of utmost importance and will be a central focus during the recuperation of tourism, which will continue to be our economic pillar. Let's show it love and care for it! □
